

June Gardening Calendar

Approximate Timing & Gardening Activities

Early June:

- Summer is here - check drips, timers and irrigation systems to ensure proper watering!
- Add summer color to your garden and patio with vinca, pentas and more...

Mid-June:

- It's Father's Day soon! We have a variety of garden-inspired gifts for Dad...
- Plants turning yellow from extra watering? If so, use Chelated Iron to green them up, and nitrogen for strong growth.
- Houseplants turning yellow? Talk to us—we can help with that too!
- Summer Harvest is upon us. Check your Tasty Garden for veggies that are ready to eat!

Late June:

- Plant heat-loving plants like cactus, bougainvillea, hibiscus and lantana.... Have hot spots in your garden? Use shade cloths to protect your plants
- from extreme heat.
Use mulch to help plants' soil retain
- moisture and reduce the water evaporation rate.
