

AI TRAINING & AWARENESS

Transform challenges into opportunities:
unlock the future with AI

In today's digital world, organizations face countless challenges: from effectively deploying advanced technologies to dealing with ethical issues and complying with regulations. Our tailor-made training courses prepare your organization for these challenges, improve operational efficiency and create sustainable value.

BE PREPARED FOR TOMORROW, WITH TODAY'S AI EXPERTISE

We ensure that our tailor-made training courses perfectly match the level of knowledge of and experience with AI within your organization. They

are developed based on the specific needs, maturity, priorities and goals of your business and/or IT teams. The duration of the training sessions varies and can be flexibly adjusted.

POSSIBLE TRAINING TOPICS

- **Ethics – RAI framework:** Training in Responsible AI (RAI) principles and how they are applied within the organization. It ensures that AI systems are developed and deployed ethically and responsibly.
- **AI lifecycle:** Introduction to the AI lifecycle to understand the lifecycle of an AI project and effectively manage the progress of tasks and decisions.

- **AI and CSRD (Corporate Sustainability Reporting Directive):** How AI can contribute to sustainability goals and compliance with CSRD.
- **AI Act and GDPR:** Insight into the legal and regulatory frameworks surrounding AI and the processing of personal data, aimed at the responsible handling of digital technologies and the management of risks for people and society.
- **Basic (Gen)AI workshop:** Introduction to generative AI and basic concepts of AI to familiarize employees with AI technologies and potential AI applications within the organization.

AWARENESS INITIATIVES

Our awareness initiatives are designed to help integrate AI into your organization responsibly and effectively. Through hackathons, RAI guilds, and awareness campaigns, we foster innovation, engagement, and a deep understanding of AI:

- **Hackathons:** Stimulating innovation and creative solutions to specific problems.
- **RAI guilds:** Establishment of internal working groups that focus on Responsible AI and promote a culture of responsible development.
- **Awareness campaigns and workshops:** Creating awareness about AI and its impact on the organization.

BENEFITS FOR YOUR ORGANIZATION

With tailor-made training, awareness sessions and the impetus for change, you can integrate AI into your business processes in a responsible, innovative and effective way. Additional benefits include:

- Ethical and responsible AI implementation
- Compliance with laws and regulations
- Sustainable value creation and transparent decisions
- Innovation and employee engagement
- Increased knowledge and skills

ABOUT CONCLUSION AI 360

Conclusion AI 360 is committed to advising companies and governments and to jointly develop and implement a sustainable AI strategy. Together with our customers, we innovate in an ethical, responsible and sustainable way for a positive impact on society.
