

CONCLUSION AI 360

RESPONSIBLE AI ASSESSMENT

Getting a grip on AI: your route to sustainable value creation

In the rapidly evolving AI landscape, organizations are confronted with the growing complexity of AI applications and regulations such as the new European AI Act, and the importance of good governance.

Conclusion AI 360 supports your organization in navigating these challenges, so that you can get a grip on the use of AI applications. We help develop AI governance, establish ethical frameworks, and invest ownership, essential for successful and sustainable value creation with AI.

WHY CHOOSE THE RESPONSIBLE AI ASSESSMENT?

Deploying AI responsibly has become a strategic imperative. Our Responsible AI (RAI) framework provides you with the tools to maintain control over the AI applications and algorithms within your organization. During the Responsible AI Assessment, we use this framework, which is based on seven* well-known assessments and principles, supplemented with value realization elements.

WHAT DOES THE ASSESSMENT OFFER?

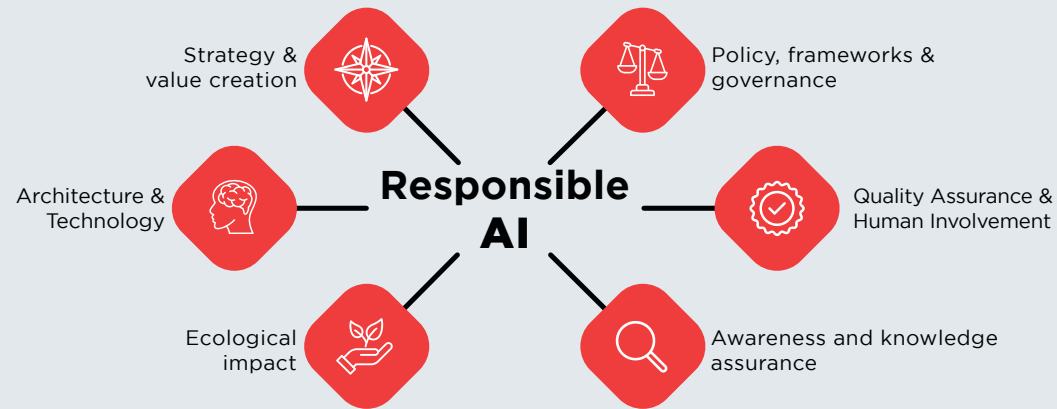

Using the six pillars of the RAI framework, we help you implement AI responsibly. In an efficient three-

to six-week process, we assess your Responsible AI maturity through:

- **Targeted questions:** Strategic questionnaire to accurately identify opportunities for improvement.
- **In-depth interviews:** Context of answers and their impact on day-to-day operations.
- **Interactive sessions:** Conversations about AI applications and challenges within the organization.

**HLEG on AI, AI4EU, OECD, AIEIG, IEEE, GDPR, and NIST*

CONTINUOUS MONITORING

After the initial assessment, we offer the possibility to set up a system for continuous monitoring. This allows assessments to take place on a regular basis, so that you have continuous insight into the progress and development of your Responsible AI strategy.

BENEFITS FOR YOUR ORGANIZATION

Our approach offers your organization the following results:

- **Insight into RAI maturity:** In-depth insight into the extent to which your organization has a grip on the responsible use of AI.

- **Identification of gaps and opportunities:**

A detailed analysis that identifies the gap between the current and desired situation.

- **Concrete recommendations:** A comprehensive report with action items and concrete recommendations for a roadmap.

ABOUT CONCLUSION AI 360

Conclusion AI 360 is committed to advising companies and governments and to jointly develop and implement a sustainable AI strategy. Together with our customers, we innovate in an ethical, responsible and sustainable way for a positive impact on society.
