**AZIENDA CON SISTEMA
DI GESTIONE QUALITÀ
CERTIFICATO DA DNV GL
= ISO 9001 =**

Oggetto della Certificazione:

Sviluppo, produzione e commercializzazione
di tessuti tecnici in fibra di vetro e in altre fibre

APPLICATION INSTRUCTION GAVATEX FULL

ATTENTION

Check the product before application.

Any defect should be claimed at this stage

Application of the product implies acceptance of the same

When covering adjacent surfaces, use only rolls with identical serial number, printed on the outside of the box

SURFACE PREPARATION:

The surface must be perfectly dry, cleaned stable

Remove old wall-coverings which could come off

In case of highly absorbent walls, it is recommended to treat the surface with GAVADES adhesive diluted with 50%-70% water

APPLICATION:

Prepare the fabric allowing for 5-10 cm in excess of the height of the wall

GAVATEX FULL is fire-proof, class B s1, d0

Pull the fabric through the Water-Active pasting machine and fold it loosely on the machine top

The integrated adhesive is activated within approx. 1 minute

For application to the ceiling a longer time such as 2-3 minutes is recommended

Apply the fabric and press with a trowel from the center towards the edges to draw off air bubbles and to improve adherence

Join the fabric rolls side by side without overlapping them

Trim the exceeding fabric using a cutter

FINISHING AND PAINTING:

When the glue is dry apply two layers of Paint

For pre-painted FULL wall coverings, it is usually enough to paint the wall once with a white or light-coloured paint, satin or matt finished

It is recommended to use acrylic or washable paints, glossy or matt water-based enamels

Suitable colours and finishing techniques offer a wide range of decorative effects in order to achieve a rich variety of harmonious patterns in every environment
