EPD®

Stockholm, December 18, 2023

To whom it may concern:

EPD International AB confirms re-approval of the pre-verified tool *TMF EPD-generator – Kitchen and Bathroom* (version 2.0) for registration and publication of EPDs in the International EPD® System.

Tool version 2.0 release:

- Changes in the EPD template for the tool regarding:
  - If several products are in EPD, list all of them on the front page,
  - If several products are in EPD, list the type of EPD made,
  - If several products are in EPD, the content declaration should reflect the range,
  - If several products in EPD, state the variation in terms of GWP-GHG for modules A1-A3 between highest/lowest and presented value,
  - If several products are in EPD, state the variation for modules A-C for all LCIA-indicators,
  - Added address to EPD owner,
  - Declare whether infrastructure is included/excluded,
  - The description of recycling is more transparent, e.g. with the recycling factor
  - Statements from PCR added,
  - Added description on what method used for separating primary energy into raw material and energy carrier.
- Changed calculation of primary energy indicators according to the chosen method and how it is balanced over the life cycle,
- Minor additions to the LCA report.
