

Sponsorship Opportunities

International Stakeholder Conference 2026

7-9 October 2026 | Delhi, India

www.environdec.com

Welcome to ISC2026

ISC2026 is the annual flagship conference of the International EPD System, dedicated to advancing Life Cycle Assessment (LCA) and Environmental Product Declarations (EPDs) across India and Southeast Asia within a rapidly evolving regulatory, trade, and industrial landscape. The conference will convene industry leaders, LCA experts, verifiers, policymakers, and technology innovators to explore the key challenges and emerging opportunities driving environmental transparency, competitiveness, and credible environmental data in the region.

This year's conference will focus on three core topics:

- **Scaling environmental transparency in India & Southeast Asia** – Address the growing demand for reliable, comparable, and third-party verified environmental data, strengthening market access and supporting export-driven industries.
- **Navigating an evolving policy and trade landscape** – Gain insights into regulatory developments, sustainability reporting frameworks, procurement requirements, and international mechanisms such as CBAM, accelerating the need for harmonised LCA methodologies and credible EPDs.
- **LCA and EPDs as strategic enablers of decarbonisation** – Identify practical pathways to scale life cycle thinking, enhance digital workflows, strengthen verification processes, and enable measurable emissions reductions across products and supply chains.

ISC2026 will be held as a three-day hybrid event for up to 400 onsite participants, alongside a global online audience, offering keynote presentations, interactive discussions, practical workshops, and high-level networking opportunities. The conference will also feature dedicated exhibitor and sponsor spaces, creating valuable opportunities for booth engagement, partnership development, and direct interaction with thought leaders and decision-makers across the LCA and sustainability space.

- Opportunity to engage directly with registered participants

Why sponsor ISC2026

Sponsoring ISC2026 presents a unique opportunity for your organisation to expand its brand visibility, demonstrate its commitment to sustainability, and engage with key stakeholders in the Environmental Product Declaration (EPD) ecosystem who share a common vision for driving meaningful, sustainable impact.

As a sponsor of ISC2026, your organisation will benefit from:

Brand visibility

Enhance your organisation's reach among environmental experts, industry leaders, and decision-makers. Your brand will be prominently displayed across digital platforms, event materials, and live sessions, to ensure visibility to a global audience.

High-Impact networking

Engage directly with key stakeholders, potential partners, and influential organisations driving the sustainable transitions the world urgently needs. The exclusive pre-conference dinner provides a valuable opportunity to cultivate strategic relationships and exchange ideas with fellow trend-setting sponsors and stakeholders.

Thought leadership

Showcase your organisation's expertise in environmental data through opportunities to deliver a keynote, join a panel, and moderate interactive discussions. Sponsorship also includes exhibitor visibility with dedicated booth presence and direct engagement with onsite participants.

Conference programme

Launch & Side Events

Open sessions and sponsored side events, including the exhibition area with booth engagement, concluding with a “by invitation only” dinner for speakers, sponsors, and key stakeholders.

Conference Day

A full day of keynote talks, panel discussions, and interactive sessions, followed by a conference dinner for all participants.

Workshops & Training

Hands-on workshops and training sessions for manufacturers, procurement officers, consultants, and verifiers, plus optional site visits.
