Fill in the blanks with the missing words.

Albert Arnold Gore, known as Al Gore, was vice president of the USA from 1993 to 2001 under President Bill Clinton. He was also a candidate for president in the (1) presidential election where he won the popular vote by more than (2) votes. He eventually lost the election but became an author and environmental activist. He received a number of prizes including the Nobel (3) Prize in 2007. Al Gore's campaign to educate citizens about global warming eventually became a (4) film called An Inconvenient Truth (2006). Since the film's (5), An Inconvenient Truth has been credited for raising international public (6) of climate change and re-energizing the environmental movement. It has also been included in science curricula in schools around the world, which has (7) some controversy. Some data and facts that he presented were also questioned and (8). He wanted to refute critics (9) say that global warming is unproven or that the warming will be insignificant. His thesis is that global warming is real, caused by humans and potentially (10).
