

PPF GROUP N.V.

Condensed interim consolidated financial statements for the first half of 2016

Review report

To: the Board of Directors of PPF Group N.V.

Introduction

We have reviewed the accompanying condensed interim consolidated financial information as at 30 June 2016 of PPF Group N.V., Amsterdam, which comprises the condensed interim consolidated statement of financial position as at 30 June 2016, the condensed interim consolidated statements of comprehensive income, changes in equity, and cash flows for the period of six-months ended 30 June 2016, and the notes. The directors of the Company are responsible for the preparation and presentation of this condensed interim consolidated financial information in accordance with IAS 34 'Interim Financial Reporting' as adopted by the European Union. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope

We conducted our review in accordance with Dutch law including standard 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity'. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim consolidated financial information as at 30 June 2016 is not prepared, in all material respects, in accordance with IAS 34 'Interim Financial Reporting' as adopted by the European Union.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

A. General

A.1. Description of the Group

PPF Group N.V. (the "Parent Company" or the "Parent") is a company domiciled in the Netherlands. It invests in multiple market segments such as banking and financial services, telecommunications, real estate, retail, insurance, metal mining, agriculture and biotechnology. Its activities span from Europe to Russia, the US and across Asia.

The condensed interim consolidated financial statements of the Parent Company for the six month period ended 30 June 2016 comprise the Parent Company and its subsidiaries (together referred to as "PPF Group" or the "Group") and the Group's interests in associates and affiliated entities. Refer to Section B of these financial statements for a listing of significant Group entities and changes to the Group in 2016 and 2015.

The registered office address of the Company is Strawinskylaan 933, 1077XX Amsterdam.

As at 30 June 2016, the ultimate shareholder structure was as follows:

Petr Kellner - 98.92% (directly and indirectly) Ladislav Bartoníček - 0.54% (indirectly) Jean-Pascal Duvieusart - 0.54% (indirectly)

A.2. Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting. Selected explanatory notes are included to explain events and transactions that are significant to understanding of the changes in financial position and performance of the Group since the last annual consolidated financial statements as at and for the year ended 31 December 2015. These condensed interim consolidated interim financial statements do not include all the information required for full annual financial statements prepared in accordance with International Financial Reporting Standards.

A.3. Basis of preparation

Dutch accounting legislation enables the Group to prepare these condensed interim consolidated financial statements in accordance with IFRS (as adopted by the EU).

The financial statements are presented in Euros (EUR), which is the Company's functional currency and the Group's reporting currency, rounded to the nearest million.

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which are stated at their fair value: derivative financial

instruments, financial instruments held for trading, financial instruments designated upon initial recognition as financial instruments at fair value through profit or loss, financial instruments classified as available-for-sale, investment property and biological assets. Financial assets and liabilities and non-financial assets and liabilities which are measured at historical cost are stated at amortised cost using the effective interest method or historical cost, as appropriate, net of any relevant impairment.

Non-current assets and disposal groups held for sale are stated at the lower of carrying amount and fair value less costs to sell.

A.4. Use of judgements and estimates

In preparing these condensed interim consolidated financial statements, management has made judgements, estimates and assumptions that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

B. Consolidated group and the main changes for the period

B.2. Acquisitions and disposals through business combinations in 2016/2015

B.2.1. Sale of Czech real estate projects in 2016

In November 2015, the Group signed an agreement for sale of three entities holding two upand-running office buildings located in Prague. The transaction was concluded in May 2016 after receipt of approval of the bank financing the projects. The consideration amounted to MEUR 5, the profit from sale was insignificant.

B.2.2. Acquisition of minority stake in The Culture Trip

On 3 June 2016, the Group acquired a 34.58% stake in The Culture Trip Ltd., the UK start-up company dealing with online publishing and book selling. Following the acquisition the Group increased its share to 43.69% through capital contribution. The Group classifies the investment as an associate, the voting share is 49%.

The following table summarises the financial aspects of the transactions described above:

| In millions of EUR | |
|---|--------|
| Consideration | 8 |
| Capital contribution | 18 |
| Total effective ownership acquired | 43.69% |
| Fair value of assets | 17 |
| Fair value of liabilities | - |
| Net asset value attributable to the Group's share | 7 |
| Goodwill | 19 |

B.2.3. O2 Czech Republic/CETIN – telecommunication business

B.2.3.1. Business restructuring in 2015

On 28 April 2015, the Annual General Meeting of O2 Czech Republic approved the company's demerger into O2 Czech Republic a.s. and Česká telekomunikační infrastruktura, a.s. ("CETIN"). The infrastructure part of the current business, including both the fixed and mobile networks, was spun-off to CETIN, while O2 CR remained a publicly listed operator providing voice, data and TV services. Having been approved by the court of registration, the demerger took effect as at 1 June 2015. The main business purpose of this step was to separate the telecommunication operator from the regulated infrastructure provider, which can then also offer its services to other clients on the market in a more efficient way. Since the demerger, O2 CR and CETIN have acted as two independent business partners with no benefits accruing from PPF Group's common control. The Group also ceased to apply its active shareholder role in O2 CR and considers its position to be that of a financial investor not interfering in the running of the company. Nevertheless, this has not curbed the Group's ability to control O2 CR, hence O2 CR is still fully consolidated in accordance with IFRS requirements.

The restructuring process has no impact on the Group's consolidated financial statements. As the whole telecommunication business was acquired in January 2014, the fair values of acquired assets and assumed liabilities were allocated to the respective entities and no revaluation was performed.

B.2.3.2. Increase in shareholding after the spin-off in 2015

Since 1 June 2015, the Group has made several acquisition and sale transactions, on aggregate selling 2.1 million shares in O2 CR, which resulted in a net decrease of 0.67% in voting rights in O2 CR, and purchasing 31.5 million shares in CETIN, equal to 10.17% of voting rights in CETIN. The O2 CR shares were sold to increase the free float and support their market liquidity on the Prague Stock Exchange, which is in line with the Group strategy described above.

The following tables summarise the financial aspects of the transactions described above:

| In millions of EUR | |
|--|--------|
| Total net consideration received | 58 |
| Net effective ownership in O2 CR decreased | 0.67% |
| Net asset value attributable to non-controlling interests sold | 6 |
| Effect recorded in retained earnings (gain) | 52 |
| Total consideration (paid in cash) | 205 |
| Effective ownership acquired in CETIN | 10.17% |
| Net asset attributable to non-controlling interests acquired | (171) |
| Effect recorded in retained earnings (decrease) | (34) |

B.2.3.3. CETIN squeeze-out in 2016

On 11 January 2016, as a result of a squeeze-out of minority shareholders, the Group became the sole shareholder of CETIN. The squeeze-out price for the residual 5.1% stake amounted to CZK 172.4 per share. The Group started to settle the relevant part of the consideration with eligible individual former shareholders in February.

The following table summarises the financial aspects of the transaction:

| In millions of EUR | |
|--|------|
| Consideration | 101 |
| Effective ownership acquired in CETIN | 5.1% |
| Net asset attributable to non-controlling interests acquired | (88) |
| Effect recorded in retained earnings (decrease) | (13) |

B.2.4. Acquisition of a 2% share in Home Credit and Air Bank (in 2015)

On 17 June 2015, the Group acquired a 2% stake in Home Credit B.V. and Air Bank a.s. from former PPF Group shareholder Mr Šmejc's affiliate. The Group increased its shareholding in both companies from 86.62 to 88.62%. The difference between the purchase price and the net asset value attributable to non-controlling interests acquired was recognised directly in equity.

The following tables summarise the financial aspect of the transaction:

| In millions of EUR | |
|--|------|
| Consideration | 74 |
| Effective ownership acquired in Home Credit | 2% |
| Net asset attributable to non-controlling interests acquired | 25 |

B.2.5. New real estate project (in 2015)

In July 2015, the Group acquired a 49.99% stake in entities holding two up-and-running Moscow office buildings (the Metropolis project). The investment is classified as associate.

The following table summarises the financial aspect of the transaction:

| | Flowermills Holding B.V., |
|------------------------------------|---------------------------|

*The Group's effective ownership is 49.94%.

B.2.6. Sale of Generali PPF Holding in 2015

On 8 January 2013, the Group, acting through its subsidiary PPF Co1 B.V., signed an agreement with Assicurazioni Generali for the future sale of its 49% stake in Generali PPF Holding B.V. ("GPH") through two partial disposals. On 28 March 2013, Assicurazioni Generali acquired a 25% shareholding in GPH, then held by the Group. At the same moment the Group repaid a 51% portion of the Calyon facility (a syndicated bank loan facility of MEUR 2,099 obtained in January 2008) in an amount of MEUR 1,071 and redeemed MEUR 192 of a MEUR 400 bond issued in November 2009.

On 16 January 2015, the Group sold its residual 24% shareholding in Generali PPF Holding B.V. for consideration of MEUR 1,246. At the same moment the outstanding amount of the Calyon facility (MEUR 1,028) and the bond notes (MEUR 208) were repaid. During 2015 (in January and June), the Group received dividend payments of 18 MEUR which are included in the net profit from the sale. The impact of the transaction on 2015 income statements is the following:

| In millions of EUR | |
|---|-------|
| Consideration | 1,246 |
| Carrying value of GPH stake as of 31 December 2014 | 1,144 |
| Dividend received during 2015 | (18) |
| Carrying value of GPH stake at disposal | 1,126 |
| AFS reserve (reclassified to the income statement) | 27 |
| Currency translation reserve (reclassified to the income statement) | (50) |
| Net profit from the sale | 97 |

B.2.7. Sale of a 20% share in Eldorado (in 2015)

On 17 June 2015, the Group sold a 20% stake in Facipero Investments Ltd., the sole shareholder of Eldorado LLC, to Mr Šmejc's affiliate. The difference between the sale price and the net asset value attributable to non-controlling interests sold was recognised directly in equity.

The following table summarises the financial aspect of the transaction:

| Consideration | 98 |
|--|------|
| Effective ownership sold | 20% |
| Net asset attributable to non-controlling interests sold | 21 |
| Currency translation reserve (attributable to NCI) | (18) |
| Effect recorded in retained earnings (gain) | 59 |

B.3. Other changes

B.3.1. Share buy-back program in O2 CR

On 28 January 2016, O2 CR commenced acquisition of own shares on the regulated market organised by the Prague Stock Exchange, under the conditions published in the connection with the approval of share buy-back program on the regulated market in December 2015. By 30 June 2016 it acquired in total 2.2 million treasury shares for total acquisition price of MEUR 19. The acquisition of the treasury shares resulted in increase of the Group's effective ownership to 84.66%.

B.3.2. Change in shareholding structure of Air Bank (in 2015)

On 30 June 2015, the Group and Mr Šmejc's affiliate (as the non-controlling shareholder) contributed their Air Bank shares to Home Credit B.V. Home Credit B.V. became the sole direct shareholder of Air Bank a.s. whereas the effective ownership of both ultimate shareholders did not change (88.62%/11.38%). The transaction has no impact on the Group's consolidated financial statements.

C. Risk exposures, risk management objectives and procedures

All aspects of the Group's financial risk management objectives and policies are consistent with those disclosed in the consolidated financial statements as at and for the year ended 31 December 2015.

During the interim period there were no other significant changes in the nature or extent of risks arising from financial instruments. There were no significant transactions influencing liquidity position of the Group.

C.1. Fair value of financial assets and liabilities

The Group has performed a fair-value assessment of its financial instruments to determine whether it is practicable within the constraints of timeliness and cost to determine their fair values with sufficient reliability.

The fair values of the following financial instruments differ from their carrying amounts shown in the statement of financial position, either in 2016 or in 2015:

| | Carrying | Fair value | Level 1 | Level 2 | Level 3 |

In millions of EUR. as at 30 June 2016

The Group's fair-value estimates for its other financial assets and liabilities are not materially different from their carrying values.

The following table presents an analysis of financial instruments recorded at fair value, broken down by how the fair value calculation is accomplished: i.e., based on quoted market prices (Level 1), calculated using valuation techniques where all the model inputs are observable in the market (Level 2), or calculated using valuation techniques where significant model inputs are not observable in the market (Level 3):

In 2015, the financial assets at fair value through profit or loss presented in Level 3 above include positive fair values of interest rate derivatives in KZT of MEUR 1 and other derivatives of MEUR 1. The fair value of the derivative instruments is sensitive to changes in the KZT/EUR foreign currency exchange rate and to changes in interest rates.

The financial assets available for sale presented in Level 3 consist of debt securities of MEUR 80 (2015: MEUR 76) and equity securities of MEUR 9 (2015: MEUR 8). The fair value of debt securities is sensitive to market interest rates. The fair value of equity securities is sensitive to economic developments of the businesses in question.

C.2. Capital management

As of 30 June 2015, the Group restructured its consumer finance and other banking business represented by Home Credit, Air Bank and PPF banka under the new holding entity PPF Financial Holdings B.V. ("the Subgroup"). The Subgroup became a financial holding company and as such became subject to consolidated prudential requirements based on Regulation No 575/2013 of the European Parliament and of the Council, with the Czech National Bank as consolidating supervisor. PPF banka was appointed as a responsible reporting entity for this Subgroup.

In November 2015, by a decision of the Czech National Bank the Subgroup was identified as an "Other Systemically Important Institution" (O-SII). No additional capital requirement was imposed as a result of this classification.

The Group and its individually regulated operations complied with all externally imposed capital requirements throughout the reporting period.

D. Segment reporting

The Group recognises reportable segments that are defined in both geographical and sector terms. These segments offer different products and services, and are managed separately because they operate in completely distinct business sectors. The Group's Board of Directors and shareholders (the Chief Operating Decision Maker) review the internal management reports of individual segments on a regular basis.

The following summary describes the operations and geographic focus of each reportable segment.

| Reportable segment | Business name/brand | Operations | Geographic focus |
|--------------------|--|--|---|
| Consumer finance | Home Credit | Lending to private individual customers, deposit-taking | Czech Republic, Slovak Republic, Russia, Asia |
| | subsidiaries of PPF banka and Air Bank | Lending to private individual customers | Czech Republic, Slovak Republic, Russia |

| Retail | Eldorado | Retailing in consumer electronic and domestic appliances | Russia |
| Telecommunications | O2 | Telecommunication operator providing a range of voice and data services (CZ), mobile operator (SK) | Czech Republic, Slovak Republic |
| | CETIN | Administration and operation of data and communication network | Czech Republic |
| Insurance | PPF Insurance | Provision of life insurance products | Russia |
| | Generali PPF Holding (sold in 2015) | Provision of life and non-life insurance products | Central and Eastern Europe |
| Other | Polymetal (associate) | Gold and silver mining | Russia, Kazakhstan |
| | RAV Holding | Grain and livestock production, storage and trade | Russia |
| | Sotio | Development of new medical therapies, focusing on the treatment of cancer and autoimmune diseases | Czech Republic, USA, China |
| | O2 Arena | Operation of multipurpose hall hosting mainly sports and cultural events | Czech Republic |

Since 30 June 2015, Air Bank has legally been part of the Home Credit Group (refer to B.3.2), but continues to be presented within the other banking segment together with PPF banka. Subsidiaries of both banks are now included in the consumer finance segment, based on their geographical focus.

Segment results include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Inter-segment pricing is determined on an arm's length basis. Segment assets and liabilities include all assets and liabilities attributable to segments.

Significant non-cash expenses comprise mainly impairment losses on financial and non-financial assets. Eliminations represent intercompany balances among individual reporting segments.

Total segment revenue contains the following categories, which may be reconciled to the income statement as follows:

| In millions | of EUR. | for the | six months | ended 30 June |

D.1. Consumer finance segment

The Home Credit consumer finance business is divided into segments based on geographical regions corresponding to the geographical location of customers. The Group operates in ten principal geographical areas: the Russian Federation, the Czech Republic, the Slovak Republic, Kazakhstan, China, Vietnam, Belarus, India, Indonesia, and Philippines.

The following table supplements the information presented for the consumer finance business in the previous table. Eliminations represent intercompany balances among individual reporting segments within Home Credit. Inter-segment revenue represents revenue realised with other core segments outside the consumer finance segment.

| Total share of earnings in associates/joint ventures | 18 | 13 |

The difference between the total investment and the Group's share in equity comprises goodwill.

Polymetal

Since 2008 the Group has held a stake in Polymetal International Plc, the Russian precious metals mining company. As of 31 December 2015, the Group held 17.85%. During 2016, the share in Polymetal was decreased to 16.46%. The company is listed on the London Stock Exchange. As of 30 June 2016, the share price of Polymetal was GBP 10.47 (31 December 2015: GBP 5.85). The Group holds 70.2 million shares.

As the investment in Polymetal fell below 20%, the Group continuously assesses the significant qualitative features of the ability to apply significant control such as representation on the board of directors and concentration of other shareholders. Based on this assessment, the Group retains the initial classification of Polymetal as "investment in associate".

<u>Metropolis</u>

In July 2015, the Group acquired a 49.99% stake in entities holding two up-and-running Moscow office buildings (the Metropolis project; refer to B.2.5). Since the acquisition in 2015, the project has made a significant profit due to a revaluation of investment property in Russian roubles, although the EUR value of the property has not changed significantly. In the six months of 2016, due to the reversed development of the exchange rate, the project has made a revaluation loss compensated by a translation gain of MEUR 40 recorded directly in equity.

| Other | 9 | 7 |
| Total liabilities to non-banks | 8,219 | 6,756 |

The table shows the liabilities owed to corporate and individual clients of the Group, the bulk of which relates to the banking business of PPF banka, Home Credit and Finance Bank and Air Bank.

E.14. Liabilities to banks and other financial institutions

Liabilities to banks and other financial institutions comprise the following:

In millions of EUR

| | 30 June 2016 | 31 December 2015 |
|----------------------------------|--------------|------------------|
| Repayable on demand | 32 | 3 |
| Loans received under repos | 342 | 206 |
| Secured loans (other than repos) | 5,151 | 4,522 |
| Unsecured loans | 1,003 | 580 |
| Other | 4 | 31 |
| Total liabilities to banks | 6,532 | 5,342 |

Secured loans include three significant loan facilities.

The first syndicated loan facility was provided by a consortium led by Société Générale (the "SG facility") in connection with the acquisition of O2 CR in January 2014. It comprised a MEUR 1,300 term loan, financing the initial acquisition price and additional shares acquired during the mandatory tender offer, and a MEUR 63 revolving loan used to cover debt service costs. The SG facility had an original maturity of November 2018 and was secured by a pledge of the Group's share in O2 CR and CETIN (following the demerger of O2 CR). In August 2015, the facility was fully repaid and replaced by a new facility. In August 2015, the Group obtained a new syndicated loan facility through its subsidiary CETIN, which was provided by a bank consortium and totalled MEUR 1,181. On 5 August 2015, the facility – drawn to the maximum amount – fully replaced the SG facility provided for the acquisition of O2 CR in January 2014. The facility, denominated in Czech crowns, consists of a three-year term loan amounting to MEUR 374 and a seven-year term loan amounting to MEUR 807. As of 30 June 2016, the facility was secured by a pledge of the CETIN share held by PPF Infrastructure and with fixed assets held by CETIN (refer to G.1).

In connection with additional direct purchases of O2 CR shares, the Group received another secured loan of MEUR 270 initially maturing in October 2020. In 2015 the facility was renegotiated which resulted in prolonged maturity in October 2021. The facility is secured by a pledge of O2 CR and CETIN shares (following the demerger of O2 CR) in a proportion financed by the facility.

In November 2015, the Group received a new senior loan facility from a group of banks consisting of a term loan of MEUR 370 and a revolving credit facility of MEUR 10. The term loan was fully drawn to finance the deferred purchase price owed to Telefonica S.A. and for recapitalisation purposes. The facility, denominated in Czech crowns, matures in December 2020 and is secured by a pledge of O2 CR shares.

Significant portion of secured liabilities relates also to funding of real estate projects (MEUR 784 as of 30 June 2016; MEUR 889 as of 31 December 2015).

As of 30 June 2016 the Group complied with all covenants related to the loan facilities with the exception for Russia. In general, the situation in Russia has worsened significantly due to the deeper-than-expected continuation of the economic crisis and the further devaluation of

the local currency. This has influenced the underlying market values of individual assets. While all the assets are doing fine in terms of cash flow performance and all the loans are being serviced properly, we are facing LTV (loan-to-value covenant) issues with most of the Russian projects. The Group is in earnest discussions with all the banks and is actively trying to find a mutual solution to this. The most likely solution will be LTV waivers provided by banks. However, the discussions remain open.

As of 30 June 2016, the LTV covenants for the Ryazan shopping mall, Tomilino and South Gate logistic projects had not been fulfilled. In case of Ryazan shopping mall a temporary waiver for any breach of covenants was granted in September 2016 by the financing bank. For South Gate project, additional security was provided to the bank in 2nd half of 2016 bringing the LTV covenant in line with the financing terms. There are also active discussions with the financing bank regarding Tomilino project in order to address this temporary valuation matter.

E.15. Debt securities issued

The following table shows details of bonds issued by the Group:

| | Interest rate | Maturity | 30 June 2016 | 31 December |
|--|---------------|----------|--------------|-------------|

E.32. Income tax expense

Income tax expense comprises the following:

In millions of EUR, for the six months ended 30 June

| | 2016 | 2015 |
|--------------------------|------|------|
| Current tax expense | (95) | (96) |
| Deferred tax expense | 12 | 52 |
| Total income tax expense | (83) | (44) |

Income tax expense is recognised based on management's best estimate of the weighted average annual income tax rate expected for the full financial year applied to the pre-tax income of the interim period. The Group's consolidated effective tax rate in respect of continuing operations for the six months ended 30 June 2016 was 25% (30 June 2015: 19%). The increase in the effective tax rate is caused by the change in the structure of tax deductible expenses and taxable income.

E.33. Off-balance sheet items

E.33.1. Commitments and contingent liabilities

The contractual amounts of commitments and contingent liabilities are set out in the following table by category. The amounts reflected in the table for commitments assume that these amounts have been fully advanced. The amounts set forth in the table for guarantees and letters of credit represent the maximum accounting loss that would be recognised at the reporting date if the counterparties failed completely to meet their contractual obligations.

The Group companies included in the banking segment engage in providing open credit facilities to allow customers quick access to funds in order to meet their short-term obligations as well as their long-term financing needs. Such credit facilities can take the form of guarantees, whereby the Group might guarantee repayment of a loan taken out by a client with a third party; stand-by letters of credit which are credit enhancement facilities enabling customers to engage in trade finance at lower cost; documentary letters of credit for obtaining lower cost financing for foreign trade on behalf of a customer; documentary letters of credit reimbursable to a Group company later and debt facilities and revolving underwriting facilities that allow customers to issue short or medium-term debt instruments without engaging in the normal underwriting process on each occasion. Revenue from provided

guarantees is recognised under "Fee and commission income" and is determined by applying the agreed rates to the nominal amount of the guarantees.

| | 30 June 2016 | 31 December 2015 |
|--|--------------|------------------|
| Loan commitments | 811 | 770 |
| Revolving loan commitments | 511 | 525 |
| Consumer loan commitments | 28 | 42 |
| Cash loan commitments | 29 | 10 |
| Undrawn overdraft facilities | 53 | 60 |
| Term loan facilities | 190 | 133 |
| Capital expenditure commitments | 92 | 55 |
| Guarantees provided | 105 | 135 |
| Non-payment guarantees | 45 | 52 |
| Non-revocable letters of credit | 1 | 1 |
| Payment guarantees | 59 | 82 |
| Total commitments and contingent liabilities | 1,008 | 960 |

These commitments and contingent liabilities have an off-balance sheet credit risk because only organisation fees and accruals for probable losses are recognised in the statement of financial position until the commitments are fulfilled or expire. Many of the contingent liabilities and commitments will expire without being advanced in whole or in part. Therefore, the amounts do not represent the expected future cash flows.

The following table shows secured liabilities:

In millions of EUR

| | 30 June 2016 | 31 December 2015 |
|---------------------------|--------------|------------------|
| Secured bank loans | 5,151 | 4,522 |
| Debt securities issued | 70 | 62 |
| Total secured liabilities | 5,221 | 4,584 |

The secured bank loans include a loan to the Ryazan project (refer to E.14) which is not fully covered by the investment property pledged: the fair value of the property as of 30 June 2016 was MEUR 56 lower (2015: MEUR 53 lower).

The assets pledged as security were as follows:

In millions of EUR

| | 30 June 2016 | 31 December 2015 |
|---|--------------|------------------|
| Cash and cash equivalents | 3 | 2 |
| Financial assets at fair value through profit and loss (repos) | 237 | 224 |
| Financial assets available for sale (repos) | 24 | 10 |
| Financial assets held to maturity (in 2015 repos) | 30 | 2 |
| Loans and receivables due from banks and other financial institutions | 10 | 38 |
| Loans and receivables due from customers | 2,683 | 1,074 |
| Inventories | 143 | 161 |
| Investment in associates (repos) | 319 | 302 |
| Investment property | 1,152 | 1,284 |
| Property, plant and equipment | 1,028 | 1,056 |
| Total assets pledged as security | 5,629 | 4,153 |

The Group pledges certain shares in O2 CR and CETIN. As of 30 June 2016, a 60.7% share in O2 CR (31 December 2015: 60.27%) and a 84.73% share in CETIN (31 December 2015: 84.73%) were used as collateral for several funding facilities (refer to E.14 and G.1).

E.33.2. Other contingencies

E.33.2.1. Litigation

The Group (as a former sole shareholder of Česká pojišťovna a.s.) is involved in litigation (formally consisting of five disputes merged procedurally into one) in which the adequacy of the consideration paid to minority shareholders arising from the decision of the general meeting of Česká pojišťovna a.s. adopted in July 2005 approving a squeeze-out of minority shareholders, is being challenged in court. On 16 June 2016, the Municipal Court in Prague fully dismissed the action of the ex-minority shareholders, however these are entitled to appeal such dismissal. Based on legal analyses carried out by external legal counsel, management believes that it is unlikely that this case will be concluded in favour of the plaintiffs.

Furthermore, the Group (through its subsidiary PPF A4 B.V.) is involved in litigations connected to a squeeze-out of minority shareholders in Česká telekomunikační infrastruktura a.s. (CETIN), approved by general meeting of this company on 3 December 2015. Several former minority shareholders filed their actions with the relevant court and asked the court to decide on adequate consideration (i.e. higher than that originally paid by PPF A4 B.V.) for their shares in CETIN. No hearing has been scheduled yet.

The following legal cases related to O2 CR are significant from the Group's perspective:

On 28 March 2011, VOLNÝ, a.s. filed a legal action with the Municipal Court in Prague against O2 CR for an amount exceeding MEUR 146, regarding alleged abuse of a dominant position in the market of broadband internet access for households via ADSL technology. Allegedly, this is due to a margin squeeze applied by O2 CR on the fixed broadband market. O2 CR replied to the petition in July 2011 by noting that both the claim and the calculations submitted by the claimant were unsubstantiated and by pointing at discrepancies in the petition claims. The first hearings took place in 2013 and 2014. Another hearing in this case was held on 6 May 2016, during which the Court reviewed the possibility of appointing an expert to reassess expert opinions filed by both, O2 CR and Volný, a.s. O2 CR filed objections against the expert proposed by Volný, a.s. on the grounds that the expert is prejudiced in relation to the matter. The court has not yet appointed any other expert, nor it has clarified the set of questions.

A legal action for MEUR 113 filed by České Radiokomunikace a.s. (ČRa) was served to O2 CR in October 2012. The claimant states that O2 CR allegedly caused it damage by abusing a dominant position on the xDSL market, which had impacted ČRa's ability to reach an "equitable position on the retail xDSL market". On 7 February 2013, the Municipal Court in Prague interrupted the proceedings pending the end of the administrative proceedings held by the Office for the Protection of Competition. After O2 CR appealed, the High Court in Prague changed the decision in June 2013 and ordered the resumption of the proceedings. ČRa filed an extraordinary appeal but it was declined by the Supreme Court on 29 April 2014. Therefore the court will have to decide on the merits without waiting for the outcome of the proceedings led by the Office. Oral hearings took place in October and November 2014 and January 2015, where all evidence on paper was put forward. The parties have started negotiations regarding private arrangement after the decision from 22 April 2016, which fully dismissed the legal action against the Company. ČRa has undertook not to appeal against the decision and O2 CR has forgiven ČRa's liability to pay the cost of the proceeding. At the same time the parties agreed that all potential disputable claims are settled. On 30 August

2016 the Municipal Court in Prague confirmed that ČRa has not appealed against the decision and that the decision came into force.

The legal action under which Vodafone Czech Republic a.s. claims amount MEUR 14 was served on O2 CR on 2 April 2015. Vodafone Czech Republic a.s. claims that O2 CR allegedly breached the competition rules regarding broadband internet connection via xDSL technology during the years 2009 to 2014. The legal action was filed less than a week after the two-page pre-litigation letter had been delivered to O2 CR. According to O2 CR, the legal action is an artificially created case primarily aimed at damaging O2 CR with adverse media coverage. Vodafone Czech Republic a.s. claims that lost profit was caused by the failure to acquire 200,000 xDSL customers. O2 CR sent a statement to the court pointing out that the legal action was not based on the facts. An oral hearing has yet to be scheduled.

A legal action for MEUR 117 filed by company BELL TRADE s.r.o. was delivered to O2 CR in February 2012. The legal action was filed at the District Court in Malacky (the Slovak Republic); it alleges that O2 CR had signed contracts with a company called RVI, a.s. for the delivery of several IT projects back in 2002. BELL TRADE s.r.o., based in Bratislava, allegedly acquired the claims as an agreed fee for services, through a chain of intermediaries. Although the Constitutional Court of the Slovak Republic already once decided that the jurisdiction of Slovak courts is not given in the matter and proceeding was terminated, O2 CR discovered yet another attempt to start another lawsuit against the Company with different reasoning.

On 14 March 2016 the proposal of BELL TRADE s.r.o. was delivered to the County court in Malacky, where BELL TRADE proposed the re-entry of O2 CR as the defendant into the procedure, which has been led solely between Slovak subjects – BELL TRADE and PET PACK SK s.r.o. on MEUR 1.1, after Constitution court's decision. BELL TRADE tries to base this new claim and new attempt to establish the jurisdiction of the County court in Malacky on the letter from 8 June 2015, in which he stated that "withdraws from all agreements concluded between the RVI, a.s. and O2 CR" and reserves the right to claim recovery of damages caused by such withdrawal. New claim raised against O2 CR represents the amount MEUR 192 with interest from 14 March 2016.

The Group believes that all litigation risk has been faithfully reflected in the financial statements.

E.33.2.2. Taxation

The taxation systems in the Russian Federation, Belarus, Kazakhstan, Vietnam and China are characterised by frequent changes in legislation which are subject to varying interpretation by diverse tax authorities. Taxes are subject to review and investigation by a number of authorities, which have the power to impose severe fines, penalties and interest charges. A tax year remains open for review by the tax authorities during several subsequent calendar years. Common practice in the Russian Federation, Belarus, Kazakhstan, Vietnam, China, India, Indonesia and Philippines suggests that the tax authorities are taking a more assertive position in their interpretation and enforcement of tax legislation.

In addition, a number of new laws introducing changes to the Russian tax legislation have been recently adopted. In particular, starting from 1 January 2015 changes aimed at regulating tax consequences of transactions with foreign companies and their activities were introduced, such as concept of beneficial ownership of income, etc. These changes may potentially impact the Group's tax position and create additional tax risks going forward. This legislation is still evolving and the impact of legislative changes should be considered based on the actual circumstances.

The facts mentioned above may create tax risks in the respective countries that are substantially more significant than in other countries. Management believes that it has provided adequately for tax liabilities and that outstanding tax receivables are recoverable based on its interpretations of applicable tax legislation, official pronouncements and court decisions within each country in question.

In terms of other countries where Group companies operate, several changes in tax legislation have been observed in recent years, especially in Cyprus, the Netherlands, the Czech Republic and the Slovak Republic. However, these changes have had no significant impact on the tax positions of any companies.

E.33.3. Guarantee received and off-balance sheet assets

F. Significant accounting policies

F.1. Significant accounting policies

The Group applies the same accounting policies in these condensed interim consolidated financial statements as were applied in the recent annual consolidated financial statements for the year ended 31 December 2015, except for the changes described below.

F.2. Changes in accounting policies and accounting pronouncements adopted since 1 January 2016

The following published Standards, Amendments and Interpretations to existing standards are mandatory and relevant for the Group's accounting periods and have been applied by the Group since 1 January 2016:

Amendments to IAS 1 Disclosure Initiative (effective from 1 January 2016)

The Amendments to IAS 1 include the following five, narrow-focus improvements to the disclosure requirements contained in the standard.

The guidance on materiality in IAS 1 has been amended to clarify that immaterial information can detract from useful information; materiality applies to the whole of the financial statements as well as to each disclosure requirement in an IFRS.

The guidance on the order of the notes (including the accounting policies) has been amended to remove language from IAS 1 that has been interpreted as prescribing the order of notes to the financial statements and to clarify that entities have flexibility about where they disclose accounting policies in the financial statements.

This standard does not have significant impact on the Group's financial statements.

Annual Improvements 2012-2014 Cycle (effective from 1 January 2016)

In September 2014 the IASB published Annual Improvements to IFRSs 2012-2014 Cycle as part of the annual improvements process to make non-urgent but necessary amendments to IFRS. The new cycle of improvements contains amendments to IFRS 5, IFRS 7, IAS 19 and IAS 34.

F.3. Standards, interpretations and amendments to published standards that are not yet effective and are relevant for the Group's financial statements

A number of new Standards, amendments to Standards and Interpretations are not yet effective as of 30 June 2016, and have not been applied in preparing these financial statements. Of these pronouncements, potentially the following will have an impact on the Group's operations. The Group plans to adopt these pronouncements when they become effective. The Group is in the process of analysing the likely impact on its financial statements.

IFRS 9 Financial Instruments (effective from 1 January 2018)

IFRS 9 is to be issued in phases and is intended ultimately to replace the International Financial Reporting Standard IAS 39 Financial Instruments: Recognition and Measurement. The first phase of IFRS 9 was issued in November 2009 and relates to the classification and

measurement of financial assets. The second phase regarding the classification and measurement of financial liabilities was published in October 2010. The third phase of IFRS 9 was issued in November 2013 and relates to general hedge accounting. The standard was finalised and published in July 2014. The final phase relates to a new expected credit loss model for calculating impairment.

The Group is assessing the potential impact on its consolidated financial statements resulting from the application of IFRS 9. Given the nature of the Group's operations, this standard is expected to have a pervasive impact on the Group's financial statements. In particular, calculation of impairment of financial instruments on an expected credit loss basis is expected to result in a change in the overall level of impairment allowance.

IFRS 15 Revenue from Contracts with Customers (effective from 1 January 2018)

In May 2014 IASB and the Financial Accounting Standards Board (FASB), responsible for US Generally Accepted Accounting Principles (US GAAP) jointly issued a converged Standard on the recognition of revenue from contracts with customers. The core principle of the new Standard is for companies to recognise revenue to depict the transfer of goods or services to customers in amounts that reflect the consideration (that is, payment) to which the company expects to be entitled in exchange for those goods or services. The new Standard will also result in enhanced disclosures about revenue, provide guidance for transactions that were not previously addressed comprehensively and improve guidance for multiple-element arrangements.

IFRS 15 supersedes IAS 11 Construction Contracts, IAS 18 Revenue, IFRIC 13 Customer Loyalty Programmes, IFRIC 15 Agreements for the Construction of Real Estate, IFRIC 18 Transfers of Assets from Customers, and SIC-31 Revenue-Barter Transactions Involving Advertising Services. In April 2016 IASB issued amendments to IFRS 15 clarifying some requirements and providing additional transitional relief for companies that are implementing the new Standard. IFRS 15 has not yet been adopted by the EU.

Given the nature of the Group's operations, this standard is not expected to have significant impact on the Group's financial statements.

IFRS 16 Leases (effective from 1 January 2019)

In January 2016, IASB issued a new Standard on leases. The standard requires companies to bring most leases on-balance sheet, recognising new assets and liabilities. IFRS 16 eliminates the classification of leases as either operating or finance for lessees and, instead, introduces a single lessee accounting model. This model reflects the fact that leases result in a company obtaining the right to use an asset (the "lease asset") at the start of the lease and, because most lease payments are made over time, also obtaining financing. As a result, the new Standard requires lessees to account for all of their leases in a manner similar to the way finance leases were treated in the application of IAS 17. IFRS 16 includes two exemptions from recognising assets and liabilities: for (a) short-term leases (i.e. leases of 12 months or less); and (b) leases of low-value items (such as personal computers).

Applying IFRS 16, a lessee will:

- recognise lease assets (as a separate line item or together with property, plant and equipment) and lease liabilities in the balance sheet;
- recognise depreciation of lease assets and interest on lease liabilities in the income statement; and

- present the amount of cash paid for the principal portion of the lease liability within financing activities, and the amount paid for the interest portion within either operating or financing activities, in the cash flow statement.

IFRS 16 has not yet been adopted by the EU.

The Group is assessing the potential impact on its consolidated financial statements resulting from the application of IFRS 16. This standard is expected to have an impact on the Group's financial statements.

Amendments to IAS 7 Statement of Cash Flows (effective from 1 January 2017)

The amendments are part of the IASB's disclosure initiative project and introduce additional disclosure requirements intended to address investors' concerns that financial statements do not currently enable them to understand the entity's cash flows, particularly with respect to the management of financing activities. These Amendments have not yet been adopted by the EU.

This standard is not expected to have significant impact on the Group's financial statements.

<u>Amendments to IAS 12 Recognition of Deferred Tax Assets for Unrealised Losses (effective</u> <u>from 1 January 2017)</u>

In January 2016, IASB issued amendments to IAS 12 Income Taxes. The amendments clarify how to account for deferred tax assets related to debt instruments measured at fair value. These Amendments have not yet been adopted by the EU.

This standard is not expected to have significant impact on the Group's financial statements.
