

Greenticker, a Leading Payroll Service Provider, Increases Efficiency by 66% using greytHR

About Greenticker:

Greenticker Financial Services LLP is a renowned financial and payroll service provider based in Pune. With a team of Chartered Accountants, MBAs, and post-graduates from reputed universities, and a blend of industry knowledge and experience in the domain, Greenticker is committed to excellence and customer satisfaction.

Industry:
Financial & Payroll
Service Provider

Payslips Managed:
300+

Headquarters:
Pune, India

Greenticker faced challenges with payroll management, one of its flagship offerings, despite having a tool in place to manage it.

Payroll Management: Challenges Faced

Manual Salary Structuring

Setting up salary structures for clients was done manually, resulting in an undue investment of time and effort.

No Tax Comparison Mechanism

Employees lacked a seamless mechanism to compare their taxes during the IT declaration phase which resulted in frequent queries to the Greenticker team.

Difficulty Managing Employee Queries

The lack of a streamlined system to oversee and address employee queries across multiple clients posed significant challenges.

Inaccurate Calculations

Employees lacked a seamless mechanism to compare their taxes during the IT declaration phase which resulted in frequent queries to the Greenticker team.

Erroneous Attendance Capture

The swipe-capturing system in place was prone to errors, leading to inaccurate payroll computations.

The greytHR Difference: Reliable Payroll Automation

To overcome these challenges, Greenticker opted for greytHR.

Automated Salary Structuring

The formula-based automation offered by greytHR to streamline and simplify the setup of custom salary structures eliminated unnecessary complexities and reduced manual effort significantly.

Help Desk

A highly efficient query resolution process increased employee efficiency and improved employee satisfaction significantly.

Automated Tax Computation

greytHR offered a dependable solution for the automation of the tax computation process that resulted in calculations with a 100% accuracy rate.

Tax Planner

greytHR's tax planning tool provided employees with precise tax projections, enabling informed decisions and reducing the frequency of queries to the Greenticker team.

Integration with the Biometric System

greytHR's capability to integrate seamlessly with the biometric attendance system reduced errors in attendance tracking and ensured accurate payroll computations.

Omkar Deshpande

Co-founder and Managing Partner,
Greenticker Financial Services LLP

Ever since we started using greytHR's payroll system, our end-of-month has become so much smoother. I love how reliable it is, and we don't struggle with month-end query surges anymore. It's been a game-changer for us!"

Results Achieved

66% Increase in Employee Efficiency

The efficiency of associates at Greenticker increased by 66% after the implementation of greytHR. Employees who previously handled payroll activities for 3 customers could now effortlessly manage the payroll of 5 customers, experiencing no difficulties or obstacles along the way.

1.5 Days Saved Per Customer

Greenticker achieved average time savings of one and a half days in processing and delivering accurate payroll outputs to their customers after the implementation of greytHR.

80% Reduction in Employee Queries

Accurate tax computations and the availability of greytHR's tax planning tool led to an 80% reduction in incoming queries from employees.

Greenticker rated greytHR a flawless 10/10 for both their onboarding and product experience with greytHR. With greytHR's automated payroll management solution in place, Greenticker now stands poised for further business growth and success.

Simplify your HR and Payroll Operations with greytHR.
