

PacketAccelerator Quickstart

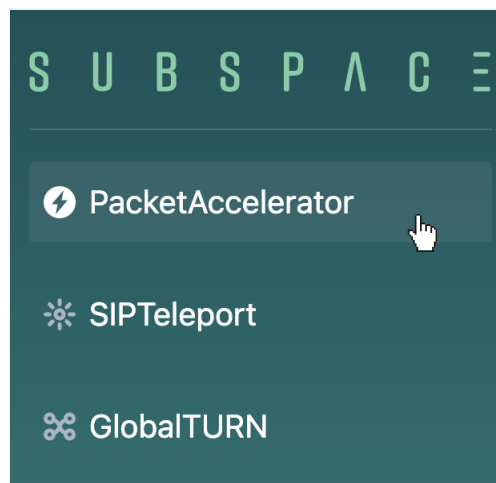

[PacketAccelerator](#) is a global IP-proxy that provides access to Subspace—a dedicated, secure internet for accelerating real-time applications. Learn more about PacketAccelerator and Subspace by visiting <https://subspace.com>.

Quickstart

1. Sign up for the Subspace console at <https://console.subspace.com/try>.

2. In the navigation menu on the left, click on "PacketAccelerator."

- Fill out the menu with your **destination IP**, **destination port**, **nickname**, and a **desired Subspace port** (if applicable). Then click **CREATE**.

The screenshot shows the 'Create PacketAccelerator' form in the Subspace interface. The form is titled 'Create PacketAccelerator' and is located in the main content area. The left sidebar contains a navigation menu with the following items: PacketAccelerator (selected), SIPTeleport, GlobalTURN, API Access, Plans, and Payments. The form fields are as follows:

- Destination IP (required)**: Input field containing '8.8.8.8'. Below the field is the text: 'The IP address for traffic to be forwarded to'.
- Destination Port (required)**: Input field containing '443'. Below the field is the text: 'The port for traffic to be forwarded to on the Destination IP'.
- Nickname**: Input field containing 'My Project'. Below the field is the text: 'The name for the Accelerator'.
- Subspace Port**: Input field (empty). Below the field is the text: 'The Subspace proxy port'.

At the bottom right of the form, there are two buttons: 'CANCEL' and 'CREATE'. A mouse cursor is pointing at the 'CREATE' button. Below the 'CREATE' button is a 'Chat' button with a speech bubble icon.

- On creation, all necessary details are returned, including its unique ID, Subspace-assigned IP address, and port.

The screenshot shows the 'PacketAccelerator Details' page in the Subspace interface. The page is titled 'Create PacketAccelerator' and is located in the main content area. The left sidebar contains the same navigation menu as in the previous screenshot. The form fields are as follows:

- PacketAccelerator Details**: A table displaying the details of the created PacketAccelerator.

Id acc_00VMQ46hIUx1bfG1RY8Qz	Name My Project
Destination Ip 8.8.8.8	Destination Port 443
Subspace Ip/Id 129.203.10.82	Subspace Port 36338

At the bottom right of the form, there is a 'FINISH' button. A mouse cursor is pointing at the 'FINISH' button. Below the 'FINISH' button is a 'Chat' button with a speech bubble icon.

- Click **FINISH** to complete the process.
