

THAT'S IT

Advanced managerial armchair made of die-cast aluminium with mesh backrest. It combines a light but strong design with a high-tech look, perfect for executive spaces.

DIMENSIONS

THAT'S IT STRUCTURE

Being 86% aluminium made, the armchair is 99.8% recyclable.

The armchair is characterised by elements that can easily be disassembled in order to ease post-use disposal.

The seat features a special "click" system allowing a rapid substitution.

The project may be placed in co-working areas, as it results easily adjustable.

The use of covers such as ONE recycled grants the use of green materials that 100% come after consumption.

SEAT AND BACKREST

Advanced managerial armchair entirely made of die-cast aluminium, available in glossy finishing or painted black.

The backrest is realized with a chromed or painted aluminium frame that supports two different types of mesh.

Spin 100% Trevira - comfortable mesh, more "textile" feeling at touch

String 100% Polyester – mesh of a more technical taste

All'interno è posizionato un supporto lombare regolabile disponibile in due versioni

POLIPROPILENE

POLIURETANO MORBIDO

The seat is totally upholstered with side double stitching, made of high-density polyurethane foam thickness 5 cm.

Its frontal anatomic shape has an anti-stress function for the legs.

The seat is always equipped with sliding seat and removable.

ARMRESTS

1. Fixed armrests in die-cast aluminium
2. Fixed armrests in die-cast aluminium and upholstered pad
3. 3D adjustable armrests in black polypropylene with soft polyurethane support and chromed aluminium profile

PACKAGING

The packaging provided complies with the regulations concerning the essential requirements for the environment and concerning the total levels of concentration of heavy metals, and it is totally recyclable with minimum environmental impact.

USAGE AND CARE

For a proper maintenance of the products and to maintain unchanged the characteristics of the materials, we recommend to follow some very simple care instructions.

FABRICS

Cleaning: check the dedicated selection written on the color Swatch card. Usage: it is recommended to pay attention to the fabrics as they can be easily cut or ripped.

LEATHERS

Cleaning: clean with a white wet cloth with water. We recommend to use high quality products for the cleaning of the leather and to follow carefully the instructions of the manufacturer. In doubt, try out the product on a hidden part and wait at least 24 hours for the occurrence of any problems. Usage: remember that the leather is a delicate material therefore, it is recommended to pay particular attention while using.

WOODS

Cleaning: clean with a soft and wet cloth with warm water. We always recommend to dry immediately after the cleaning process. All liquids or other residue must be removed in order to avoid the absorption. Usage: wooden surfaces, being a natural material, could be affected by an alteration of the color shade during time and use. We also remind that wooden surfaces cannot bear with high temperatures if placed directly on the wooden top.

METALS

Cleaning: both steel or aluminum surfaces, and painted ones, must be cleaned with a soft and wet cloth with hot water. For the most persistent stains, a small amount of liquid soap diluted in water may be used. We always recommend to dry immediately with a soft cloth or a leather one after the cleaning process. Never using cleaning products for steel, chlorine, bleach or other strong detergents. It is not recommended to use abrasive creams, score pads and abrasive sponges that can scratch the metal surfaces. Usage: pay attention to the stains of food such as coffee, coke, fruit juices that can leave indelible marks on the surface.

WARRANTY

QUINTI guarantees the products will maintain their properties for 6 years from delivery, except normal usury and provided that they will be used according to the guidelines given. QUINTI will replace, free of charge, any product found non-compliant with this warranty, without incurring any other liability of sort. Components, external accessories or materials supplied by the buyer and applied to the products in order to customize them will not be supported by the guarantee. For an optimal maintenance of the products and to keep unchanged the characteristics of the materials with which they are made, some simple attentions are necessary.
