

DEEP LOUNGE

Quinti®

DIMENSIONS

FINISH AND BASE

The supporting frames of the chair are of two types:

1. Base 4 swivel spokes on feet painted white, black or glossy aluminium
2. Base 4 legs in metal painted white or black

INTERNAL STRUCTURE AND TYRES

The internal structure is entirely made of Plastitex, a patented flame-retardant material that is environmentally friendly and 70% lighter than traditional drums. The armchair is made of cold-foamed polyurethane rubber with an internal metal frame and elastic straps to increase comfort.

It is duly coated with polyurethane rubber variable density and resin to give adequate comfort to the chair. The coating can be made with all colors and coatings of your choice from the color chart Quinti.

USE & MAINTENANCE

For an optimal maintenance of the products and to maintain unchanged the characteristics of the materials with which they are made, some simple attentions are necessary.

THE FABRICS

Cleaning: refer to the recommendations for maintenance and washing given in the fabric sheet of the color chart.

Use: it is recommended to pay attention to the use as it is can be torn or cut.

THE LEATHERS

Cleaning: clean with a damp white cloth soaked in water only. Use high-quality skin care products according to the manufacturer's instructions. In case of doubt, test the product on a part hidden from view to verify the result, waiting at least 24 hours for possible problems.

Use: remember that the leather is a delicate material therefore it is recommended to take care during use.

THE WOODS

Cleaning: Clean with a damp, soft cloth soaked in warm water. Always dry after cleaning. Remove any liquid substances or other residues immediately to prevent absorption.

Use: wood surfaces, being a natural material, may, over time, undergo color changes with use and exposure to light. Remember that wood cannot withstand direct heat sources on the surface.

THE METALS

Cleaning: both metal surfaces made of steel or aluminium, as well as painted surfaces, must be cleaned with a damp and soft cloth soaked in hot water. For the most stubborn stains it is possible to dilute neutral liquid soap in water with moderation. Always dry after cleaning with a soft cloth or deer skin. Do not use creams and pastes to clean steel, do not use chlorine, do not use bleach and other aggressive detergents. Do not use abrasive pastes, scouring pads and sponges that can scratch metal surfaces.

Use: be careful of food stains such as coffee, cola, fruit juices that can leave indelible stains on surfaces

GARANZIA

QUINTI guarantees that the products will keep their characteristics for 6 years from delivery, save normal wear and provided they are used according to the indications given. QUINTI will replace any product found not to comply with this warranty free of charge, without bearing any other responsibility. It is excluded the application of the warranty on components, external accessories or materials supplied by the buyer and applied to the products for the purpose of a customization of the same. For an optimal maintenance of the products and to maintain unchanged the characteristics of the materials with which they are made, some simple attentions are necessary.
