

# THANK

Quinti®

THANK is a system of padded and upholstered sofas ideal for restaurants, bars, hotels and waiting rooms. The structure, in metal and wood, and the dimensions of the backrest and armrests make it a comfortable, versatile and highly characterized furnishing object.

## FRAME AND PADDING

The internal structure of the THANK system is entirely made of wood equipped with elastic support straps to increase seat comfort and adequately padded with variable density and resin rubbers.

Seat and backrest are easily removable (ACCESSORY Lining upholsteries for all elements)

Also available with 1IM approved fireproof tyres

The legs are made with a conified tubular in chromed or black painted metal

Measures		Seat height	Total height	Width	Depth

## Disassembly

All products have been designed in such a way as to allow their disassembly at the end of their useful life, so that their parts and components can be reused, recycled or recovered for energy purposes.

---

## Warranty & Safety

QUINTI guarantees that the products will maintain their characteristics for 6 years from delivery, except for normal wear and condition that they are used according to the instructions provided. QUINTI will replace without charge any product found not to comply with said guarantee, without bearing any other liability whatsoever. E' excluding the application of the guarantee on components, external accessories or materials supplied by the buyer and applied to the products for the purpose of customizing them. For optimal maintenance of the products and to maintain the characteristics of the materials with which they are made unchanged, some simple attention is required. All the seats offered are SAFE in accordance with the provisions of EU Regulation 2023/988, on general product safety (GPSR), strengthened by UNI EN certifications.

The company does not consider itself responsible if it is misused (Stand up or use products such as ladder and swings that could affect the operation and safety of the user. To lift or move the product, grip firmly on the load-bearing structure. The product must not be subjected to off-centre loads, it has been designed to be used under normal conditions of support on 4 legs or on the base).

---

## USAGE AND CARE

For a proper maintenance of the products and to maintain unchanged the characteristics of the materials, we recommend to follow some very simple care instructions.

### FABRICS

Cleaning: check the dedicated selection written on the color Swatch card. Usage: it is recommended to pay attention to the fabrics as they can be easily cut or ripped.

### LEATHERS

Cleaning: clean with a white wet cloth with water. We recommend to use high quality products for the cleaning of the leather and to follow carefully the instructions of the manufacturer. In doubt, try out the product on a hidden part and wait at least 24 hours for the occurrence of any problems. Usage: remember that the leather is a delicate material therefore, it is recommended to pay particular attention while using.

### WOODS

Cleaning: clean with a soft and wet cloth with warm water. We always recommend to dry immediately after the cleaning process. All liquids or other residue must be removed in order to avoid the absorption. Usage: wooden surfaces, being a natural material, could be affected by an alteration of the color shade during time and use. We also remind that wooden surfaces cannot bear with high temperatures if placed directly on the wooden top.

### METALS

Cleaning: both steel or aluminum surfaces, and painted ones, must be cleaned with a soft and wet cloth with hot water. For the most persistent stains, a small amount of liquid soap diluted in water may be used. We always recommend to dry immediately with a soft cloth or a leather one after the cleaning process. Never using cleaning products for steel, chlorine, bleach or other strong detergents. It is not recommended to use abrasive creams, score pads and abrasive sponges that can scratch the metal surfaces. Usage: pay attention to the stains of food such as coffee, coke, fruit juices that can leave indelible marks in the surface.
