To lift or move the product, grip firmly on the load-bearing structure. The product must not be subjected to off-centre loads, it has been designed to be used under normal conditions of support on 4 legs or on the base).

Use & Maintenance

For optimal maintenance of the products and to keep the characteristics of the materials with which they are made unchanged, some simple attention is required.

METALS

Cleaning: both steel or aluminum metal surfaces and painted surfaces must be cleaned with a damp, soft cloth soaked in hot water. For the most stubborn stains it is possible to dilute liquid neutral soap in water in moderation. Always dry after cleaning with a soft cloth or buckskin. Do not use creams and pastes to clean steel, do not use chlorine, do not use bleach and other harsh detergents. It is not recommended to use abrasive pastes, scourers and abrasive sponges that can scratch metal surfaces. Usage: be careful of stains from foods such as coffee, cola, fruit juices which can leave indelible stains on surfaces.
