Disassembly

All products have been designed in such a way as to allow them to be assembled at the end of their useful life, so that their parts and components can be reused, recycled or recovered for energy purposes.

Warranty & safety

QUINTI guarantees that the products will maintain their characteristics for 6 years from delivery, without prejudice to normal wear and tear and provided that they are used according to the instructions provided. QUINTI will replace any product found to be non-compliant with the said warranty without incurring any other liability whatsoever. E' excluding the application of the warranty on external components, accessories or materials supplied by the buyer and applied to the products for the purpose of personalizing them. For optimal product maintenance and to maintain the characteristics of the materials from which they are made unchanged, some simple care is necessary.

All sessions offered are SAFE according to the provisions of EU Regulation 2023/988, on General Product Safety (GPSR), strengthened by UNI EN certifications.

The company does not hold itself liable if it is misused (Standing up or using products such as ladders and swings that could compromise the operation and safety of the user. To lift or move the product grip firmly on the supporting structure. The product must not be subjected to off-center loads, it was designed to be used under normal conditions of support on 4 legs or on the base).

Use & maintenance

For optimal product maintenance and to maintain the characteristics of the materials from which they are made unchanged, some simple care is necessary.

THE FABRICS

Cleaning: See the maintenance and washing tips on the fabric tab of the color chart. Use: Careful use is advised as they can be torn or cut.

THE LEATHERS

Cleaning: Clean with a damp white cloth soaked in water only. Use quality leather cleaning products by carefully following the instructions of the cleaning product manufacturer. If in doubt, it is recommended to test the product on a part hidden from view to verify the result, waiting at least 24 hours for any problems to arise.

Use: Remember that the skin is a delicate material therefore it is recommended to take care during use.

METALS

Cleaning: Both steel or aluminum metal surfaces, as well as painted surfaces, should be cleaned with a damp, soft cloth soaked in hot water. For more stubborn stains, you can dilute liquid neutral soap in water in moderation. Always dry after cleaning with a soft cloth or chamois leather. Do not use creams and pastes to clean steel, do not use chlorine, do not use bleach and other harsh detergents. It is not recommended to use abrasive pastes, scouring pads, and abrasive sponges that can scratch metal surfaces. Use: Watch out for stains on foods such as coffee, cola, fruit juices that can leave permanent stains on surface.
