Usage and Care

For optimal maintenance of the products and to preserve the characteristics of the materials they are made of, a few simple precautions are necessary.

FABRICS

Cleaning: please refer to the care and washing instructions provided in the fabric section of the color chart.

Use: it is recommended to take care when using them as they can be torn or cut.

LEATHERS

Cleaning: clean with a damp white cloth soaked in water only. Use high-quality leather cleaning products, carefully following the manufacturer's instructions. If in doubt, test the product on a hidden area to check the result, waiting at least 24 hours to see if any problems arise.

Use: please remember that leather is a delicate material, so care should be taken when using it.

METALS

Cleaning: both steel and aluminum metal surfaces, should be cleaned with a soft damp cloth soaked in warm water. For stubborn stains, you can dilute a small amount of mild liquid soap in water. Always dry after cleaning with a soft cloth or chamois leather. Do not use creams or pastes to clean steel, do not use chlorine, bleach, or other aggressive detergents. Do not use abrasive pastes, scouring pads, or abrasive sponges, as they may scratch metal surfaces.

Use: be careful with food stains such as coffee, cola, and fruit juice, which can leave permanent stains on surfaces.

WOODS

Cleaning: clean with a soft, damp cloth soaked in warm water. Always dry after cleaning. Immediately remove any liquids or other residues to prevent absorption.

Use: wood surfaced, being a natural material, may undergo color changes over time with use and exposure to light.

Please note that wood cannot withstand direct heat sources on its surface.

WARRANTY

QUINTI guarantees that the products will maintain their characteristics for 6 years from delivery, without prejudice to normal wear and tear and provided that they are used according to the instructions provided. QUINTI will replace any product found to be non-compliant with the said warranty without incurring any other liability whatsoever. The application of the warranty on components, external accessories or materials supplied by the buyer and applied to the products for the purpose of personalizing them is excluded. For optimal product maintenance and to maintain the characteristics of the materials from which they are made unchanged, some simple care is necessary.
