NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

1 Significant Accounting Policies

(a) Reporting Entity

VisAsia was incorporated on 26 February 1999 as a company limited by guarantee and is a not for profit entity as profit is not its primary objective and it has no cash generating units. The reporting entity is consolidated as part of the Art Gallery of NSW Trust (Art Gallery) financial statements.

The financial statements for the year ended 30 June 2013 have been authorised for issue by the Board of Directors on 14 October 2013.

(b) Basis of Preparation

The VisAsia's financial report is a general purpose report, which have been prepared in accordance with:

- the *Corporations Act 2001*,
- Australian Accounting Standards and Interpretations,
- the requirements of the *Public Finance and Audit Act 1983*, the Public Finance and Audit Regulation 2010 and
- the Financial Reporting Directions published in the Financial Reporting Code for NSW General Government Sector Entities issued by the Treasurer.

The financial statements are based on historical cost. Judgements, key assumptions and estimations management has made are disclosed in the relevant notes to the financial statements. All amounts are rounded to the nearest dollar and are expressed in Australian currency.

(c) Statement of Compliance

The financial statements and notes comply with Australian Accounting Standards, which include Australian Accounting Interpretations.

(d) Accounting for the Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of amount of GST except that:

- the amount of GST incurred by the entity as a purchaser that is not recoverable from the Australian Taxation Office is recognised as part of the cost of acquisition of an asset or as part of an item of expense; and
- receivables and payables are stated with the amount of GST included;

Operating cash flows are stated on a gross basis in the Statement of Cash Flows. The cash flows arising from investing and financing activities are also classified as operating cash flows.

(e) Revenue Recognition

Revenue is measured at the fair value of the consideration or contribution received or receivable. Donations are recognised when the VisAsia receives control over the assets comprising the donations. Control over these are normally obtained upon receipt of cash. Interest revenue is recognised using the effective interest method as set out in AASB 139 *Financial Instruments: Recognition and Measurement*.

(f) Acquisitions of Assets

The cost method of accounting is used for the initial recording of all acquisition of assets by VisAsia.

Cost is the amount of cash or cash equivalents paid or the fair value of the other consideration given to acquire the asset at the time of its acquisition or construction or, where applicable, the amount attributed to that asset when initially recognised in accordance with the requirements of other Australian Accounting Standards.

Fair value is the amount for which an asset could be exchanged between knowledgeable, willing parties in an arm's length transaction.

(g) Financial Instruments

The VisAsia's financial instruments arise directly from the VisAsia's operations or are required to finance its operations. The VisAsia does not enter into or trade financial instruments for speculative purposes and does not use financial derivatives.

(i) Cash and cash equivalents

Cash comprises cash on hand and bank balances. Interest is earned on daily bank balances and paid monthly at the normal commercial rate.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

(ii) Term Deposits

The VisAsia has placed funds in bank deposits "at call" or for a fixed term. The interest rate payable is negotiated initially and is fixed for the term of the deposits. The deposits are usually held to maturity. Interest is accrued as at 30 June each year and brought to account in the Statement of Comprehensive Income.

(iii) Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. These financial assets are recognised initially at the transaction cost or face value. Subsequent measurement is at amortised cost using the effective interest method, less an allowance for any impairment of receivables. Any changes are accounted for in the Statement of Comprehensive Income when impaired, derecognised or through the amortisation process. No interest is earned on trade and other receivables. The credit risk is the carrying amount (net of any allowance for impairment). No interest is earned on trade and other receivables. Sales are made on 30 day terms. Short-term receivables with no stated interest rate are measured at the original invoice amount where the effect of discounting is immaterial.

(iv) Investments

The VisAsia does not have any long term investments.

(v) Payables

The amounts represent liabilities for goods and services provided to VisAsia and other amounts, including interest. Payables are recognised initially at transaction cost or face value. Subsequent measurement is at amortised cost using the effective interest method. Short-term payables with no stated interest rate are measured at the original invoice amount where the effect of discounting is immaterial.

(vi) Risk Management of Financial Assets

VisAsia's investment's are confined to Term Deposits which are administered by the Art Gallery in line with its Investment Policy which was endorsed by the Finance Committee/Board during 2011/12. The Policy is reviewed annually by the Art Gallery's Audit and Risk Committee.

Credit risk arises when there is the possibility of VisAsia's debtors defaulting on their contractual obligations, resulting in a financial loss to VisAsia. The maximum exposure to credit risk is generally represented by the carrying amount of the financial assets (net of any allowance for impairment). VisAsia is not materially exposed to concentrations of credit risk to a single trade debtor or group of debtors. The credit risk for trade debtors is the carrying amount (net of any allowance for impairment). No collateral is held by VisAsia. VisAsia has not granted any financial guarantees. Credit risk on term deposits is managed by ensuring that only those banks and building societies approved by the Reserve Bank/Australian Prudential Regulatory Authority (APRA) and included in the Art Gallery "Approved List", all of which have A ratings or better. Maturities are generally less than 12 months.

Liquidity risk is the risk that VisAsia will be unable to meet its payment obligations when they fall due. VisAsia continuously manages this risk through monitoring future cash flows and maturities planning to ensure adequate holding of high quality liquid assets. VisAsia has no loans or overdrafts and no assets have been pledged as collateral. An overdraft facility is not considered necessary as arrangements have been put in place to call in term deposits at short notice if needed. A penalty of reduced interest rate may sometimes be incurred.

Interest rate risks - VisAsia's exposure to interest rate risks is limited with the fixed rate term deposits which are negotiated prior to investment.

Other risks - VisAsia does not have financial assets which are exposed to market, currency or other risks.

(vii) Impairment of Financial Assets

All financial assets, except those measured at fair value through profit and loss, are subject to an annual review for impairment. An allowance for impairment is established when there is objective evidence that VisAsia will not be able to collect all amounts due. Any reversals of impairment losses are reversed through the Statement of Comprehensive Income, where there is objective evidence.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

(viii) De-recognition of Financial Assets and Liabilities

A financial asset is derecognised when the contractual rights to the cash flows from the financial assets expire; or if VisAsia transfers the financial asset:

- where substantially all the risks and rewards have been transferred or
- where VisAsia has not transferred substantially all the risks and rewards, if the entity has not retained control.

Where VisAsia has neither transferred nor retained substantially all the risks and rewards or transferred control, the asset is recognised to the extent of VisAsia's continuing involvement in the asset.

A financial liability is derecognised when the obligation specified in the contract is discharged or cancelled or expired.

(h) Comparative information

Except when an Australian Accounting Standard permits or requires otherwise, comparative information is disclosed in respect of the previous period for all amounts reported in the financial statements.

(i) Taxation Status

VisAsia is entitled to an income tax exemption concession.

(j) Accounting Standards Issued but not yet Effective

VisAsia did not early adopt any new accounting standards and interpretations that are not yet effective.

VisAsia has assessed the impact of these new standards and interpretations and considers the impact to be minimal or insignificant.
