

DR. RALPH R. GARRAMONE

PLASTIC SURGEON

FORT MYERS, FLORIDA

ABOUT

For more than 23 years in the Fort Myers community, Dr. Ralph R. Garramone has beautified his patients and developed a reputation for outstanding results and a caring bedside manner.

“We treat all of our patients as if they were a family member or close personal friend,” he says. Named as one of Castle Connelly’s best plastic, breast and cosmetic surgeons for more than 15 years, he is proud of the accolades he’s received during the course of his career. More important than praise is the satisfaction of his patients that he treats for a myriad of cosmetic concerns, including breast surgery, body contouring, facial rejuvenation procedures and the latest cutting-edge nonsurgical treatments. “We’re here to make our patients look more beautiful than they did when they walked in the door, and we have every option to do it from head to toe,” adds the surgeon.

Q&A

Which new services are you excited to offer?

We offer patients the best surgical, minimally invasive and nonsurgical techniques to help them look their absolute best.

How does your staff enhance your practice?

My exceptional staff perpetuates the highest standard of customer service—our patients are truly like family members.

Which three words best describe you?

Thoughtful, organized, generous

What is the most common medical myth you hear patients say?

I hear that plastic surgery is only for women. Plastic surgery is not gender biased. Anyone who wants to look and feel their best has the opportunity to do so.

What are you proudest about your practice?

I’m immensely proud of my dedicated staff at Garramone Plastic Surgery. Their loyalty and hard work exceed my expectations, making our practice thrive beyond imagination.

“Our patients’ results speak for themselves.”
