## THE COMPLETE PACKAGE:

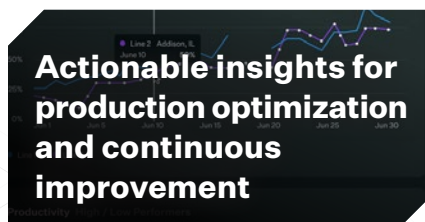

### Equipment & Systems

### Parts & Service

### Technology & Software

## SNACK FOOD MANUFACTURERS ASK...

- ✓ **How fast can we get the line running?** In just a few days.
- ✓ **Do we need to stop production during installation?** Generally no. If so, minimal disruption.
- ✓ **Can the system handle different case sizes & shapes?** Yes, it's a system scoped for your line.
- ✓ **How do we track production & downtime?** Real-time insights with Formic Production Intelligence (FPI).
- ✓ **What's included in support & maintenance?** 24/7 service, preventative & corrective maintenance, and all spare parts.
- ✓ **Can we upgrade or swap equipment later?** Absolutely. Full flexibility with no long-term agreements required.

Wyandot  
Snacks

**SNACKABLE  
SUCCESS:**

# WYANDOT SNACKS AUTOMATED WITH **\$0 CAPEX**

**Problem:** Bottlenecks slowed growth and created capacity constraints.

**Solution:** Automated palletizing boosted output and improved line flexibility.
