

Lampsi

A CONSTRUCTIVIST-INSPIRED SUSPENSION LAMP FULL OF CHARACTER THAT CAN BE ADAPTED TO DIFFERENT ENVIRONMENTS.

Lampsi is a suspension lamp created by Park Associati and produced by Driade for the international boutiques of the Brioni brand. Inspired by Constructivism, Lampsi comprises a central core enclosed in an austere graphic cage. This results in the lamp projecting its shape and creating geometric lines on the ceiling and walls. Realised in warm colours that soften its geometric shapes and make it an intriguing, characterful object, this discreet light source can be adapted to different interior design solutions. Lampsi's diffused light is achieved through the application of LED strips to the extruded anodised aluminium structure.
