What for children? Is there anything for them as well? How many times did you ask this question at the moment you had to book a family holiday? Well, now you can do it knowing that FAIRSUD has thought about them as well. Yes, about your children. They will be welcomed and looked after by the originality and geniality, by the care and experience of a cultural association in Modica with a such strange name as ambitious: **Biribillie – art, game, life.** A group of young women (entertainer, teacher, mothers) inspired by the idea that thanks to the streets of art and the game rules, there can be space for the vital creativity of children (but also of people that, even grown up, did not stop keeping learning with games.
