IT Manager

Who are we

Codam is a new and innovative coding college in the heart of Amsterdam. We aim to offer quality learning to our students and to create the next generation of software engineers and digital visionaries. Everyone from 18 to 30 years old is welcome to apply, we offer our programme free of charge, and no qualifications or diploma are required.

We believe in equal opportunity and education as an engine for social mobility, we give young people a better chance of maximizing their potential. Codam's education model is based on peer-to-peer learning. Students will learn through doing and solving problems with their peers, in a college with 24/7 access.

Our new IT Manager will be responsible for all IT equipment, services and software. We are looking for someone with a broad scope of skills to ensure that our IT infrastructure is reliable and improves steadily.

The Key responsibilities:

- Ensure that all IT services are up and running, frequently audit the infrastructure and optimize the processes. Improve the infrastructure according to the needs.
- Maintenance of all hard- and software, including iMacs, servers, network devices, Access control system, camera security system, Intranet, and Codam's PR and application websites.
- Resolve limitations and come up with creative custom tools and solutions when necessary.
- Responsible for the data streams stored in the infrastructure, and make sure our systems are secured and working according to the law.
- Being responsive to the needs of the student and provide them with a suitable learning environment.
- Liaise with the Facility Manager and Security Team to maintain the access and safety systems, and be reactive in case of unexpected events.
- Point of contact to all external IT suppliers and partners.

Who are we looking for?

- Experienced IT Manager in a medium-sized business.
- Up to date programming and sysadmin skills, and knowledge of IT trends and technologies.
- Generalist: experience with both soft- and hardware for multiple uses.
- Adaptable, with a strong will to learn.
- Open to new technologies and creative problem solver.
- Excellent communication skills, open, and responsive to all IT needs in the organization.
- Proficient in English.

IT Experience

- High experience with the following technologies (regularly used):
    - VMware vShpere and vCenter
    - Debian
    - openLDAP
    - Ansible
    - macOS
    - Python
    - PostgressSQL / MySQL
    - Django
    - Nginx

- Medium experience with the following technologies (used before):
    - Isc-dhcp
    - Bind9
    - Ubuntu
    - Radius/freeRadius
    - Postfix/openDMARC/openDKIM
    - Ruby on Rails
    - HTML/CSS
    - GoLang
    - Windows Server
    - Active Directory
    - Javascript
    - Express.js

What we offer

- Full time job (40 hours)
- Start as soon as possible
- Salary according to market

If you meet the above requirements, are open-minded and with a positive attitude, then come and join our friendly and welcoming team in this unique and exciting adventure. A technical test will be part of the application process.

Please send your application letter and resume to Roos Peters at roos.peters@codam.nl.
