

AUDIO & VIDEO ENGINEER

Would you like to work at a young foundation that is changing the educational model in the Netherlands? Are you curious, creative and want to work with the newest high-end audio and video equipment?

Codam is looking for someone who will be responsible for creating, recording and editing all video and audio content at Codam. Are you ready to make innovative, creative and high-quality productions, and up for the challenge of managing all our technical equipment in the Auditorium and Green Room? The come and join us in this unique and exiting adventure!

What we offer you

- Part of a small team with a passion for making education accessible to everyone.
- Opportunity to grow and improve the tricks of A/V engineering on the job.
- Working in the heart of Amsterdam, on a state-of-the-art campus surrounded by students.
- Full-time job (40 hours), starting as soon as possible.
- Salary indication: 38k per year including holiday allowance.

What you will be doing

- Before all events, making sure that the technical equipment in the Auditorium is ready and available, and during the events, record and stream to later share the content with our community.
- Manage the Codam's YouTube channel: shoot, edit and issue videos. Work closely together with the Communication Manager and Head of Partnerships to ensure regular new content.
- Upon request from the Head of Studies record videos for educational purpose in the Green Room. Videos must be in line with existing layout and style, and only for internal use.
- Create and edit all graphic assets (digital and print), including photo, video, flyers, clothing.
- Responsible for availability planning of the Auditorium and Green Room.
- Staying up to date with audio, video and image editing technologies and incorporate new trends.

What makes us happy

- Experience with a/v engineering, equipment and processes.
- Technical knowledge of audio, video and image creating and editing software, such as Adobe Premiere, After Effect, Logic, Photoshop, Illustrator et cetera.
- Creative; new ideas to organize fun, innovative and inclusive high-quality content.
- Excellent communication skills, open, and responsive to all A/V needs in the organization.

Who we are

Codam is a new and innovative coding college in the heart of Amsterdam. We aim to offer quality learning to our students and to create the next generation of software engineers and digital visionaries. Everyone from 18 to 30 years old is welcome to apply as a student, we offer our programme free of charge, and no qualifications or diploma are required.

We believe in equal opportunity and education as an engine for social mobility, we give young people a better chance of maximizing their potential. Codam's education model is based on peer-to-peer learning. Students will learn through doing and solving problems with their peers, in a college with 24/7 access.

Next steps
