

PROJECT MANAGER CODAMKIDS

We're looking for a Project Manager for CodamKids!

CodamKids is an initiative of Stichting Codam and is founded to increase children's (8-14 years old) enthusiasm for technology, and help them grow their digital skills in an innovative and playful way. It is our mission to provide the youth of today the tools and skills to impact the world of tomorrow.

CodamKids will be the place for children to experience new and innovative ways of education, where they are challenged and encouraged to learn according to the Codam philosophy. The project will include holiday camps and an afterschool program, with the aim of establishing an institute similar to Codam but aimed at a younger target group.

Codam is a non-profit organization. Just like Codam's full time programming course, there are no fees involved for participants in CodamKids. We want to create a place where everyone feels welcome.

Are you experienced with educating children, have a curiosity for tech and new ways of learning and limitless energy to build CodamKids from the ground up? Then we would be very interested in getting to know you and discuss the possibilities to join us in this unique and exciting adventure!

What we offer you

- Opportunity to create a completely new and innovative institute for digital literacy training for children.
- Responsibility to develop a project from scratch.
- Part of a small team with a passion for innovation and making education accessible to everyone.
- Working in the heart of Amsterdam, on a state-of-the-art campus surrounded by students.
- 32 – 40 hours job, starting as soon as possible.
- Market conform salary.

What you will be doing

- Creating a curriculum, focused on learning digital skills and getting familiar with technology.
- Project management, including setting up and scaling the project, managing the tutors/trainers and addressing possible subsidies and/or sponsors.
- Stakeholder management, getting in touch with schools and other relevant organizations to recruit the children, the goal is to address children with different backgrounds.
- Create, train and maintain the trainer's community, formed by Codam students.
-

What makes us happy

- Proficient in Dutch
- Background as a teacher, or training in educational science and/or child and youth studies
- Experience with education, and/or young children between 8 and 14 years old
- Organizational and project management skills, including planning, communication, and teamwork
- Creative with new ideas for the program, and innovative ways of learning
- Excellent communication skills, open, and responsive to all the different needs in the organization.

Who we are

Codam is a new and innovative coding college in the heart of Amsterdam. We aim to offer quality learning to our students and to create the next generation of software engineers and digital visionaries. Everyone from over 18 years old is welcome to apply as a student, we offer our program free of charge, and no qualifications or diploma are required. Codam's education model is based on peer-to-peer learning. Students will learn through doing and solving problems with their peers, in a college with 24/7 access.

Next steps
