Kim Zolciak Photos Before & After Plastic Surgery! What Work Has She Had Done?

Former Real Housewives of Atlanta Star Kim Zolciak-Biermann raised eyebrows (pun intended) at the Bravo Upfronts in New York City on April 3rd. Zolciak appeared more fresh faced and sparked rumors she had recently went under the knife for a nose job! Kim was all smiles with her husband, Kroy, as she posed in pictures with her former RHOA co-stars, and promoted her new spin-off, 'Don't Be Tardy!' [RadarOnline](#) reached out to a renown plastic surgeon to get his opinion on what work he thinks Kim has had done, judging by several before and after photos.

“It looks like Kim has had a rhinoplasty with tip refinement,” **Dr. Raffi Hovsepian of RHMD Plastic Surgery in Beverly Hills**, who has not worked with Kim, tells Radar. “Her lips look like they have been augmented and her forehead has no creases which leads me to believe she has had a lot of botox as well.”

Kim has been very open about plastic surgery on Bravo, using special wraps and laser treatments to lose weight instead of going to the gym, and, of course, she has admitted to using botox regularly.
