## Personalized Aesthetic Surgery with Dr. Raffi Hovsepien

HAUTE PARTNERS June 2, 2025 Akshay

### Luxury Aesthetic Care in the Heart of Beverly Hills

For Hollywood elites and international clients looking to enhance their natural appearance through plastic surgery, Dr. Raffi Hovsepien, located in Beverly Hills, California, is the top choice. He is well-known for prioritizing his patients' well-being and dedication to natural-looking outcomes.

“My aim is to enhance an individual's unique and natural beauty by providing individualized care, while building a trusting relationship with my patients,” Dr. Hovsepien says on the website for this practice.

Dr. Hovsepien runs his boutique clinic in Beverly Hills, catering to an exclusive clientele.

### Enhancing Natural Beauty

Dr. Hovsepien uses a bespoke, holistic approach with all his patients. He believes in communicating clearly with his clients and making certain that he understands their beauty needs while educating them on the procedures that will be used to create the best results. Dr. Hovsepien takes every aspect of the patient's wellness into account, including their mental health. Understanding the patient's cosmetic goals, lifestyle, and overall well-being is essential for the best outcome.

Dr. Hovsepien's collaborative approach makes certain that the patient understands exactly what procedures he will be using and the results they can expect. Dr. Hovsepien uses the latest surgical techniques and technologies to artistically create results that will fit his patients' vision and amplify their natural beauty.

## About Dr. Hovsepian

Dr. Hovsepian has been featured in popular publications for his successes with his high-end clientele and his significant contributions to aesthetic surgery.

His artistic approach, coupled with his extensive qualifications, including a triple board certification, has made him the premier plastic surgeon in his field. He is certified by the American Board of Plastic Surgery, the American Board of Surgery, and the European Board of Plastic Reconstructive and Aesthetic Surgery. Dr. Hovsepian also earned a medical degree and two master's degrees from Chicago Medical School.

In addition to his impressive credentials and education, he honed his surgical skills and technique while completing a general surgery residency at the University of Nevada School of Medicine. He later participated in a plastic surgery fellowship at the University of California's Irvine's Aesthetic & Plastic Surgery Institute. He continues to retain a relationship with the Irvine School of Medicine, where he serves as an assistant clinical professor, teaching and mentoring the plastic surgeons of the future.

## Innovative Procedures

Dr. Hovsepian stays consistently informed of the latest techniques and procedures in the plastic surgery industry and has also created revolutionary procedures. He is the pioneer behind the Shrink-Wrap Liposuction technique.

By using small incisions and laser technology, Dr. Hovsepian safely removes fat from his patients' problem spots. The laser treatment also helps tighten the skin, induces collagen retraction, and overall tissue shrinkage. The procedure can reduce a patient's size with minimal downtime. Additionally, once the fat cells are destroyed by the laser, they are permanently gone.

Dr. Hovsepian also offers various "makeovers" for his clients. These makeovers include various procedures that address problematic areas, such as the Millennial Makeover and the Model Makeover. The Millennial Makeover addresses the "Millennial Trifecta," which includes the face, breasts, and buttocks.

All these procedures are used to revitalize a person's appearance and enhance their natural beauty through Dr. Hovsepian's artistic touch and extensive knowledge of aesthetic surgery.

Dr. Hovsepian can be reached at his practice at *421 N. Rodeo Drive, Suite T-13, Beverly Hills, CA 90210.*
