DECISION (EU) [2020/XX*] OF THE EUROPEAN CENTRAL BANK

of 7 April 2020

amending Guideline (EU) 2015/510 on the implementation of the Eurosystem monetary policy framework and Guideline (EU) 2016/65 on the valuation haircuts applied in the implementation of the Eurosystem monetary policy framework

(ECB/2020/20)

THE GOVERNING COUNCIL OF THE EUROPEAN CENTRAL BANK,

Having regard to the Treaty on the Functioning of the European Union, and in particular the first indent of Article 127(2) thereof,

Having regard to the Statute of the European System of Central Banks and of the European Central Bank, and in particular to the first subparagraph of Article 12.1 in conjunction with the first indent of Article 3.1 and Article 18 thereof,

Whereas:

- (1) In accordance with Article 18.1 of the Statute of the European System of Central Banks and of the European Central Bank (hereinafter the 'Statute of the ESCB'), the European Central Bank (ECB) and the national central banks of the Member States whose currency is the euro (hereinafter the 'NCBs') may conduct credit operations with credit institutions and other market participants, with lending being based on adequate collateral. The general conditions under which the ECB and the NCBs stand ready to enter into credit operations, including the criteria determining the eligibility of collateral for the purposes of Eurosystem credit operations, are laid down in Guideline (EU) 2015/510 of the European Central Bank (ECB/2014/60)¹.
- (2) Coronavirus disease 2019 (COVID-19) has been characterised by the World Health Organization as a pandemic and is the cause of a collective public health emergency which is unprecedented in recent history. It has produced an extreme economic shock that requires an ambitious, coordinated and urgent reaction on all policy fronts to support businesses and workers at risk. As a consequence of the pandemic, economic activity across the euro area is declining and will inevitably suffer a considerable contraction, especially as more countries are

¹ Guideline (EU) 2015/510 of the European Central Bank of 19 December 2014 on the implementation of the Eurosystem monetary policy framework (General Documentation Guideline) (ECB/2014/60) (OJ L 91, 2.4.2015, p. 3).

faced with the need to intensify containment measures. These measures place acute strains on the cash-flows of businesses and workers and put the survival of businesses and jobs at risk. It is also clear that this situation hampers the transmission of the monetary policy impulses and adds severe downside risks to the relevant inflation outlook.

- (3) On 7 April 2020, the Governing Council adopted a further set of decisions in response to the COVID-19 pandemic, which could jeopardise the objective of price stability and the proper functioning of the monetary policy transmission mechanism. These include collateral easing measures to facilitate Eurosystem counterparties in maintaining sufficient eligible collateral in order to be able to participate in all liquidity-providing operations. These measures are proportionate to counter the serious risks to price stability, the monetary policy transmission mechanism and the economic outlook in the euro area posed by the outbreak and escalating diffusion of COVID-19. Such measures need to apply temporarily, until the Governing Council considers that the abovementioned risks have subsided.
- (4) Therefore, Guideline (EU) 2015/510 (ECB/2014/60) should be amended accordingly.
- (5) Moreover, the Governing Council has decided to temporarily increase its willingness to take on risks to support the provision of credit via its refinancing operations. In particular, the valuation haircuts applied to collateral will be reduced by a fixed factor.
- (6) Therefore Guideline (EU) 2016/65 of the European Central Bank (ECB/2015/35)² should be amended accordingly.
- (7) To react promptly to the current pandemic situation, these amendments should be made by a decision that takes effect on the date of notification to the NCBs and should be published without delay in the *Official Journal of the European Union*, so that those amendments will be applied directly by the NCBs on the dates specified,
