

## Keolis – Business Card 2025

The video showcases the various modes of transport offered by Keolis.

We provide innovative and tailored shared mobility solutions:

Trains, buses and coaches, trolleybuses, on-demand transport, dedicated services for people with reduced mobility, river and maritime shuttles, self-service bikes and long-term bike rentals, car sharing, 100% electric autonomous shuttles...

The opening scenes show transport networks with vehicles in operation across a wide range of environments. The sequences highlight collective and shared transport, illustrating how seamlessly they are integrated into passengers' everyday lives.

Several modes of transport are presented one after another, each illustrated through images reflecting their use: urban travel, intercity connections, and mobility solutions adapted to different regions.

Key figures and messages appear on screen to illustrate the scale and performance of the mobility offering, including:

- 70,000 employees
- 300 partner local authorities
- Presence in 13 countries
- We imagine We care We commit
- Operator and integrator of all mobility solutions
- From the first to the last mile
- Mobility rooted in local communities
- Caring mobility
- Low-carbon mobility
- More ways More life

The video concludes with an overview of the mobility solutions, highlighting a strong commitment to accessible, sustainable transport tailored to the needs of regions and passengers.
