About Yoto

Inspired by Montessori principles, Ben Drury and Filip Denker founded Yoto in 2017. The very first Yoto Player launched on Kickstarter, then promptly sold out in 2019. The second generation Yoto Player was designed with renowned design agency, Pentagram, and launched in early 2020. The brand's portfolio continued to grow with subsequent product launches, including the portable Yoto Mini in 2021 and with the third generation Yoto Player in 2023.

Now available worldwide, Yoto has won awards and accolades from critics, parents and children alike. TIME Magazine named Yoto Player one of the Best Inventions of 2020, and Yoto Mini won a prestigious D&AD Pencil in 2022.

Yoto's platform features both award-winning original content and audio that has been licensed or co-created with partners. These partners include Pottermore Publishing, PRH, Macmillan, Sony, Disney, LEGO, Roald Dahl Story Company, HarperCollins, Hachette, Viacom, Bonnier and Scholastic.

Great for at home

This is the third generation of our award-winning audio player. Designed to soundtrack childhood adventures, it's packed with features that inspire creative play and support family life.

[Yoto Player](#) (3rd Generation) builds on the features beloved by families around the world. Yoto cards give kids control over 1,400 audio titles from the world's greatest creators. And its seven-color night light - improved for a more vibrant glow - helps parents get "nighty-night"s and wake-ups right.

And now the acoustically-engineered Yoto Player (3rd Generation) sounds better than ever. Families can enjoy up to 16 hours of play on a single charge. Plus, a room thermometer lets parents of newborns ensure their baby is always sleeping comfortably.

It's the next generation player for the next generation of play.
