

EXTEND

DESCRIPTION

Extend features an innovative peptide complex, rich in Biochanin A, to promote thicker, fuller and more luscious lashes with visible results within 2 weeks of regular use. Clinical results prove its ability to significantly promote eyelash growth and combat against the loss of eyelashes. Within 8 weeks of regular use, patients reported a 45% increase in new lash growth!

BENEFITS

- ✓ Helps boost growth of natural eyelashes
- ✓ Contains a peptide complex rich in Biochanin A
- ✓ 73% improvement in lash density within 30 days of use
- ✓ 45% increase in new lashes within 60 days of use
- ✓ 25% increase in eyelash length within 14 days of use

DIRECTIONS FOR USE

- Apply a very small amount to the base of clean, dry lashes at night only. May be applied to the brows twice per day. Do not apply directly into the eye; if this should occur, rinse thoroughly with water. Continued use is recommended to maintain desired results.

INGREDIENT HIGHLIGHTS

- Trifolium Pratense (Clover) Flower Extract, Myristoyl Pentapeptide-17, Acetyl Tetrapeptide-3, Provitamin B5 (Panthenol)
