Product name

According to Page 2-4 of this certificate.

Product description

Ladders made of Aluminium and wood, in accordance with product list on Page 2–4 of this certificate. Technical documentation in accordance with the material supplied for RISE, file reference 1154539, 1189044, 1207531, P127124.

Certificate

RISE certifies that the product specified on this certificate complies with the requirements of Norwegian labor inspection authority's regulations on construction, design and manufacture of work equipment and chemicals (produsentforskriften) § 4-1 to 4-4 version 19 June 2020 No. 1272, RISE certification rules SPCR 064 dated 2025-01-03 and EN 131/EN 14183 in accordance with the product list.

Marking

Ladders must be marked with RISE, the certificate number, the manufacturer's name or registered trademark and year of manufacture as well as according to the requirements of NS-EN 131. The marking should be legible throughout the product lifespan.

Validity

This certificate is valid not later than 2027-12-22. The validity of this certificate can be verified at RISE homepage.

Miscellaneous

This certificate supersedes the previous certificate with the same number. The certificate was originally issued 2017-12-22.

This document may not be reproduced other than in full, except with the prior written approval by RISE Certification.

Conditions

- Before each use, check that the ladder or trestle is properly erected /locked.
- The telescopic ladder must not be used in dirty jobs or dirty environments. Use in masonry, concrete work, painting or similar means that ladder will be difficult to clean. This can in turn lead to that the telescopic function is greatly impaired.
- If needed, ladders and trestles must be clearly and durably marked with user instructions when delivered to the user.

Miscellaneous

This certificate is valid for ladders made and supplied by the manufacturer as stated on the certificate, and of which the materials, dimensions and design/construction accord with those of the inspected material.

The certificate must accompany the product when it is handed over to the user.

This document may not be reproduced other than in full, except with the prior written approval by RISE Certification.
