Section 1. Calculation of fees and charges referred to in the Tariff

1. Services covered by this Tariff (the "**Tariff**") are regulated by the valid "General conditions for the provision of services in the ferry terminal in Świnoujście".
2. Rates in the Tariff are expressed in the Polish zloty (PLN).
3. Rates in the Tariff are expressed in their net values, i.e. excluding value added tax (VAT). Rates in the Tariff are subject to statutory VAT valid on the date of the service.
4. The minimum fee in the fare is PLN 40.00.
5. All service charges in the Tariff expressed as percentage figures shall be levied on the principal (basic) charges.
6. For the purpose of calculating charges in the Tariff, the weight of the load shall be rounded up to 100 kg.
7. In the case of seaborne break bulk, charges in the Tariff shall be calculated based on the weight of cargo stated in the IMO entry or departure declaration (FAL). The cargo weight declared shall be identical with that given in the cargo manifest. In case of a discrepancy between the contents of documents referred to in the preceding sentence, the higher weight indicated in the documents shall be adopted while calculating charges specified in the Tariff.
8. The charges listed in the Tariff shall be payable only by transfer to the bank account of the Ports Authority within 21 days of the date of the document that specifies the relevant charge, or up to 14 days from the date of an aggregate document for a period of up to one week (i.e. Monday to Sunday) and the payment period cannot exceed the end of a calendar month.
9. Rates specified in the Tariff are subject to indexation after the end of each calendar year against the average annual increase in the consumer price index published by the President of the Central Statistical Office (CSO) for the previous year, provided the index exceeds 100. The amendment of the rates due to indexation does not constitute a change of the tariff terms and conditions. The rates indexed in the above-mentioned manner are effective from 1st April of each calendar year and shall be included in the Tariff immediately after the publication by the CSO. The first indexation of rates will take place in April 2023.
10. Unless the Tariff specifies otherwise, every term shall have the meaning defined in the document referred to in Section 1 (1) of the Tariff, and in the absence of a definition in this document, the meaning defined in the "Port Tariff " adopted by ZARZĄD MORSKICH PORTÓW SZCZECIN I ŚWINOUJŚCIE Spółka Akcyjna (THE SZCZECIN AND ŚWINOUJŚCIE SEAPORTS AUTHORITY, or the Seaports Authority) having its registered office in Szczecin, address: ul. Bytomska 7, 70-603 Szczecin, Poland; entry to the Register of Entrepreneurs of the National Court Register under the number: KRS 0000033768, Court of Registration: Szczecin-Centrum District Court in Szczecin, REGON: 811649448, VAT No: 9551889161 pursuant to Article 8 of the Act of 20 December 1996 on ports and harbours in relation to Art.10 of the Act of 12 September 2002 on port reception facilities for ship-generated waste and cargo residues.

Section 2. Mooring and unmooring

No	Ship	Charge (PLN / 1GT)
1.	Sea-going ships	0,05146
2.	Inland waterway vessels	0,06238

Explanatory notes:

- (i) Mooring/unmooring charge shall be calculated based on the gross tonnage (GT) as specified to the valid International Tonnage Certificate issued according to the 'International Convention on Tonnage Measurement of Ships' made in London on 23 June 1969.
- (ii) In the case of ships having a tonnage certificate that specifies their gross registered tonnage (GRT), the charge shall be calculated based on the assumption that 1 GRT = 1 GT.
- (iii) Where it is not possible to determine the gross tonnage of a vessel (GT) or gross registered tonnage (GRT), the port charge shall be based on the tonnage of the vessel expressed in cubic meters, i.e. the product of the total length, maximum width and maximum draft according to the summer freshwater line, rounded up to the nearest cubic meter; It is assumed that 1 m³ = 1 GT.
- (iv) Where different tonnages of the vessel are shown in the international tonnage certificate or the vessel holds more than one international tonnage certificate, relevant port charges shall be based on the highest tonnage specified in these documents.
