

Fact Sheet

Buying driver training lessons for a client or employee

RACT

Want to help someone achieve their full potential by getting their licence?

No matter where someone may be on their learn to drive journey, we're here to help. Our accredited, experienced instructors help students to feel safe and confident behind the wheel with industry leading teaching methods. When ready, we can even conduct a students Ps assessment in our dual controlled, 5 star ANCAP safety rated vehicles.

How does it work?

First **get in touch** with us, over the phone, via email, or at one of our drive school locations. If they're not already we'll **set the student up in our system**. If you have it, it's good for us to know their full name, date of birth, phone number and learners drivers licence number.

We'll help you to **select a lesson or assessment package**. Whether they're starting from scratch, need help with their hours, or are just sitting an assessment we have options suitable for all. (visible page over)

Payment is made by credit card, or a trading account can be setup in pre approved circumstances.

At time of purchase you can **book** multiple sessions in advance, or you can leave the lessons or assessment as pre-paid credits for the student to book at a time that suits them.

That's it, we'll send a reminder text to the student the day before any scheduled lesson or assessment. With our online calendar students can always check their bookings, reschedule or make a new booking.
