

TRAFFIC LIGHT

colour match

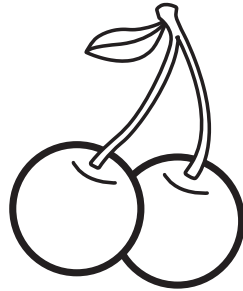

Red means _____

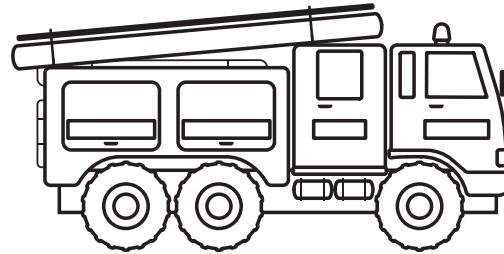

Orange means _____

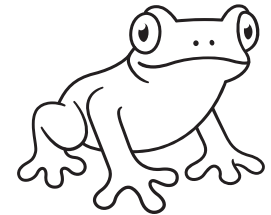

Green means _____

Colours are an important part of the signs that help us know what to do on the roads, and keep us safe. **Colour the traffic lights the correct colours and write what each colour means. Then colour each object below and write what the object is.**

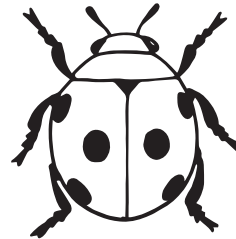

All objects should be coloured in one of the traffic light colours.

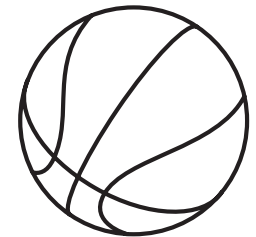

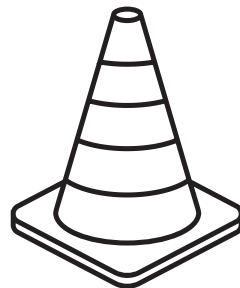

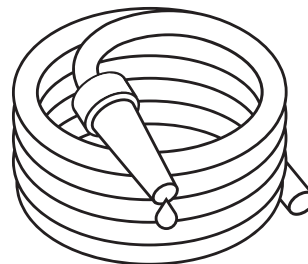

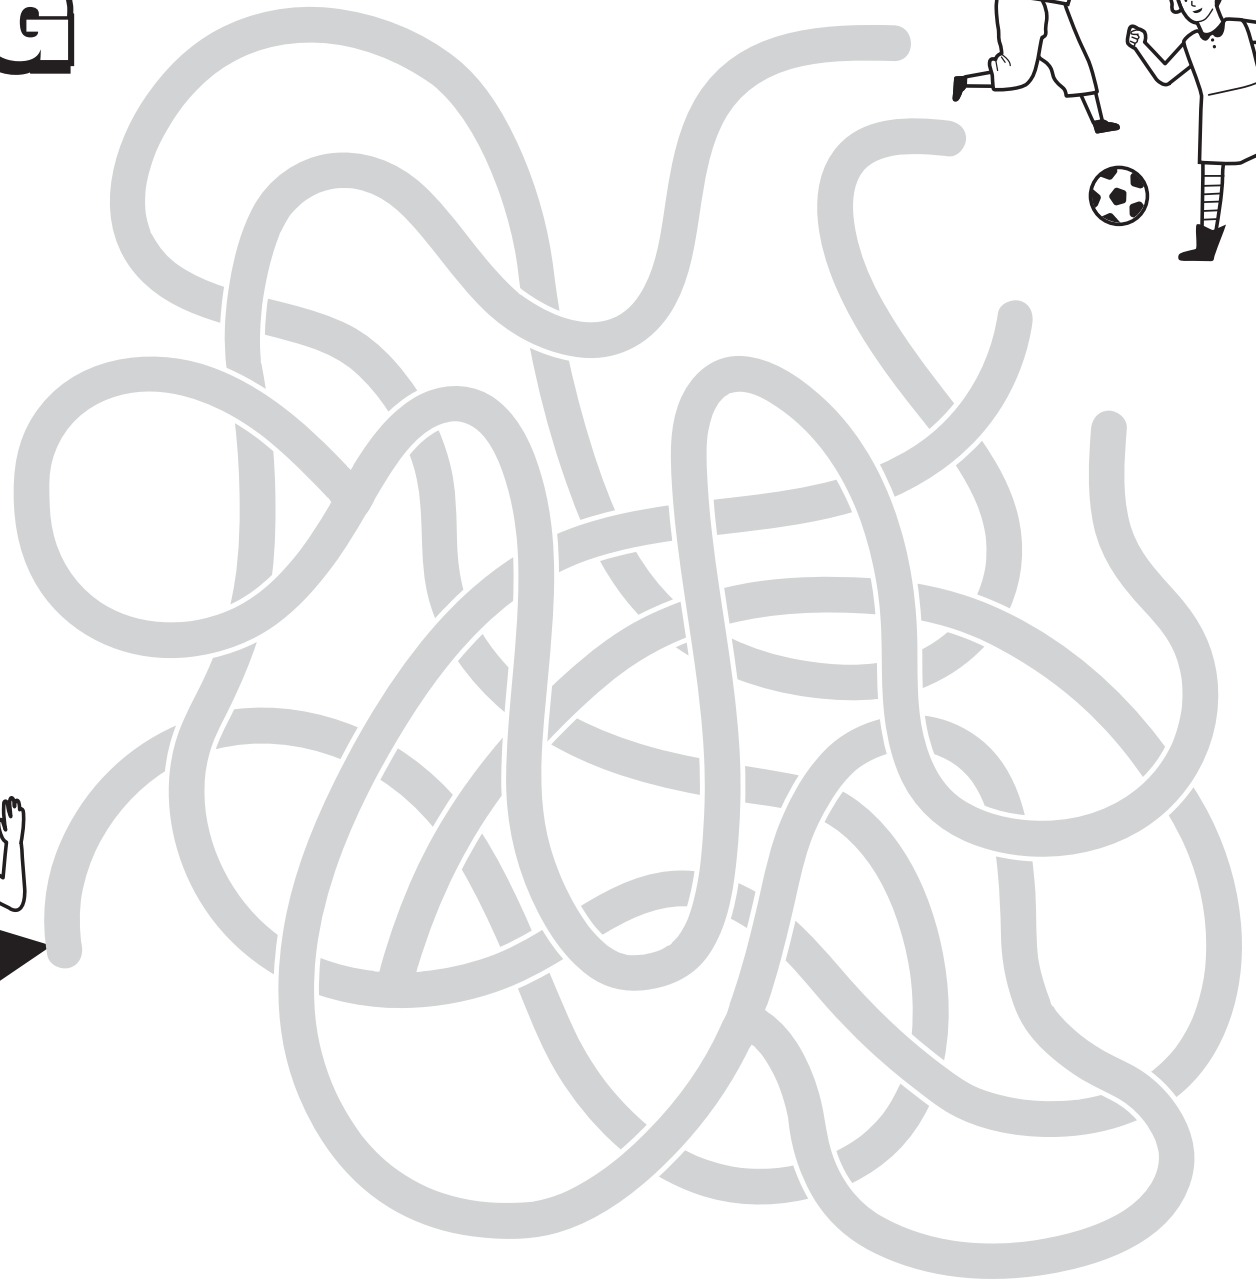

ZEBRA CROSSING

Park maze

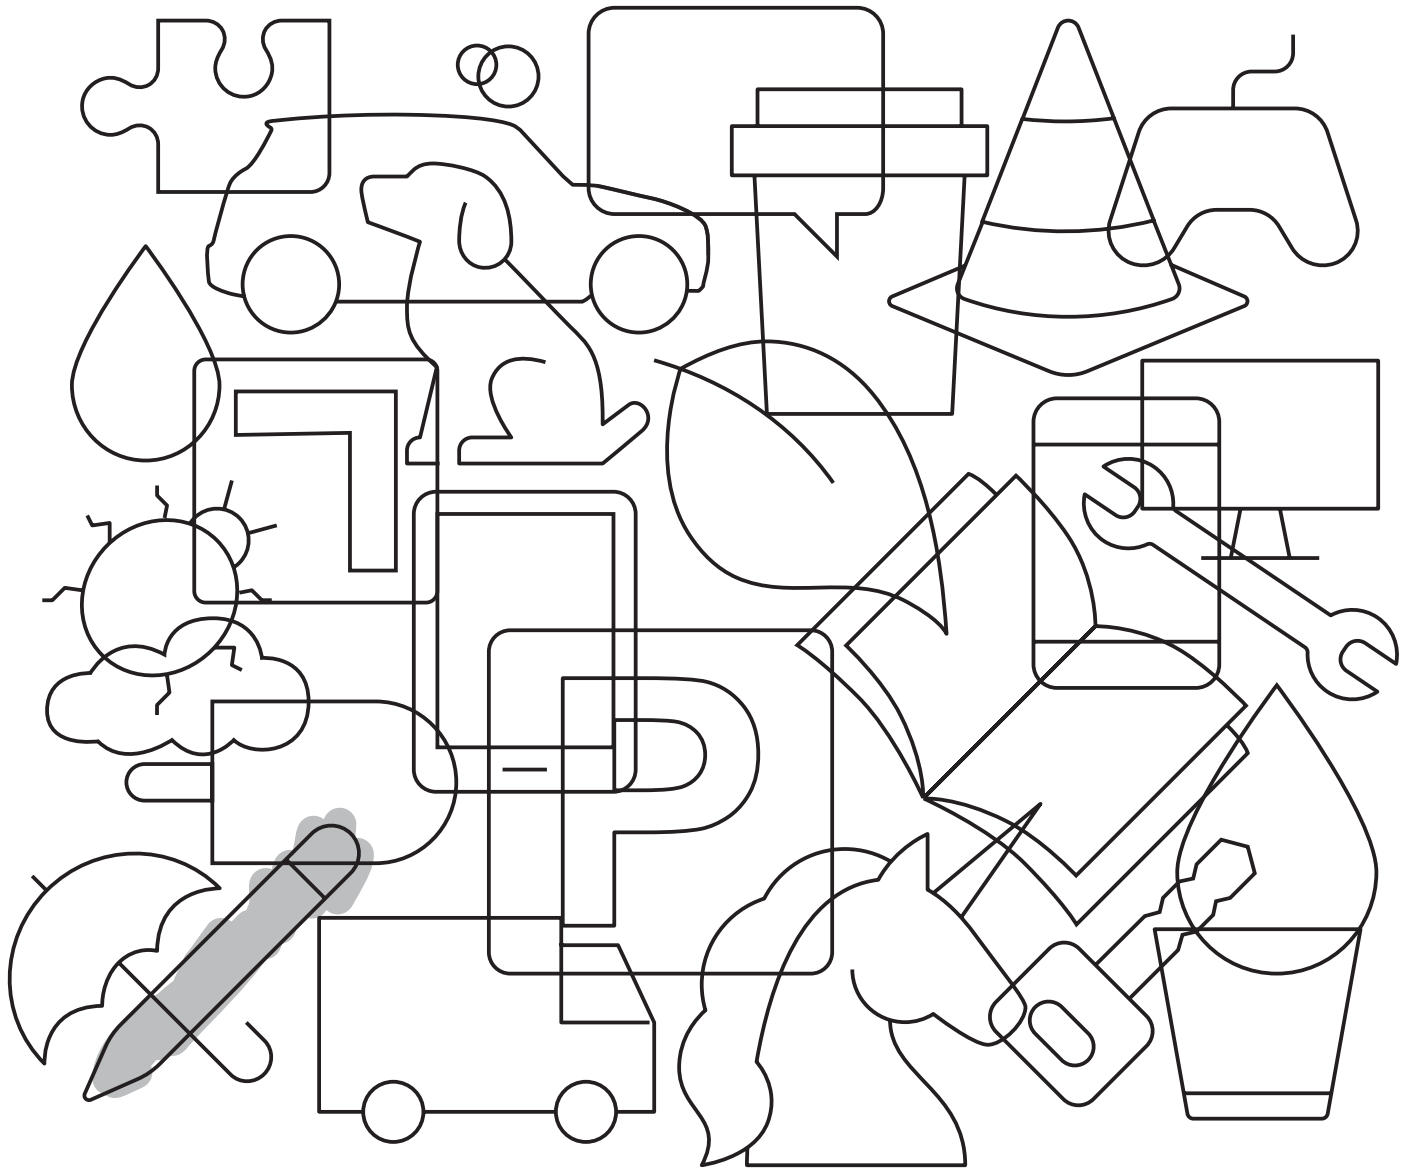

The safest way to cross a road is using a zebra crossing holding an adult's hand. Amy and Cooper wandered over the other side of the park to kick the soccer ball but now it's time to go! **Can you guide the kids back through the maze to their Mum so they can cross the road safely with her?**

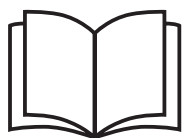

DRIVER TRAINING

shape search

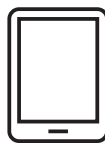

Lost in the jumble below are many important things we need to teach new drivers how to handle the road safely. **Find each object, colour it in so it's easier to see, then check it off the list below (the first one has been done for you).**
