ABOUT ME

- I consider myself a **competent, proactive** person; with great cognitive ability and welcoming to change.
- I'm **avid to learn** new techniques and advances both in my field and related ones.
- My biggest interest area is the creation of service-like experiences for people with a focus on **reducing complexity and moving parts**.
- I enjoy, and have a good skill in, **programming and everything technology-related**; but never looking past its actual utility in a design.
- I am currently attending the MSc Design for Interaction programme at TU Delft, which has made me discover the **infinite ways** an experience and its interactions can be met.

WORK EXPERIENCE

- **Student assistant at TU Delft**
- **Teaching assistant at TU Delft**
Netherlands, 2019 - 2020
testing design interventions to improve communication and workflow in the day-to-day of the StudioLab collective of professors; and helping fellow students learn Arduino programming and how to realize their projects with it
- **Designer and Facilitator at Museo Mare Memoria Viva**
Italy, 2019
creating a workflow of participative design and co-creation, for an exhibition about migrants in Palermo
- **Student designer at Zalando, and KONE**
Finland, 2019
short-term projects in the field of Service and Experience Design projects, as part of TU Delft workshops and courses
- **Student designer at NS and PostNL**
Netherlands, 2018
short- and long-term projects in the field of Service and Experience Design projects, as part of TU Delft workshops and courses

Spain, 2017
managing its website, and creating graphic resources and brand identities for its events
- **Web designer at Hyperloop UPV**
Spain, 2016
- **Graphic designer, web designer, and webmaster at Makers UPV**
Spain, 2015 - 2018
collaborating with the student association and their events (Olympic Robot Challenge, Hebocon, and workshops)

EDUCATION

- **MSc Design for Interaction at TU Delft**
In progress (last year)
Netherlands, 2017 - 2020 projected
- **BSc in Industrial Design Engineering and Product Development at Universitat Politècnica de València**
Spain, 2014 - 2018

COURSES

- **Advanced Photoshop and Digital Photography at Universitat Politècnica de València**
45 hours, Spain, 2015
- **Mathematics and Game Theory at Universidad de Extremadura**
20 hours, Spain, 2013
on a grant awarded by the Ministry of Education and Science of Spain

EXHIBITIONS

- **Future Flux Festival in Rotterdam**
Participant, Netherlands, 2018
- **Grifos / Rubinetti at ETSID**
Organizer, designer and participant; Spain, 2017

SKILLS

TOOLS

- **General computing tools (Windows, macOS; Office software)**
Expert
- **Industry-standard graphics design software (Adobe Illustrator, InDesign; Affinity suite, Sketch)**
Advanced
- **Industrial design tools (AutoCAD, Rhinoceros, SolidWorks)**
Medium
- **HTML + CSS + JavaScript programming for web design; and JavaScript for server programming**
Advanced
- **Fast learning of new tools**
Expert

LANGUAGES

- **Spanish**
Native
- **Catalan / Valencian**
Native
- **English**
CAE with special mention, at C2 Level
