comparing prices? make sure you're comparing apples to apples

Skilpod prefers to give you a clear all-in price for your new home up front. Everything that we can include, is included in this price. It's possible that this makes the price per square meter look higher than with other builders. So make sure you include everything when comparing prices.

Included in our price:

1. Support for the permit request, including the survey and sounding of your plot
2. Help at every step during the building process
3. Groundworks, foundation, sewage
4. Your Skilpod, fully ready for you to move in, with flooring, kitchen, bathroom(s), painted walls and cleaned before the hand-over
5. 8 solar panels of 405 Wp
6. Connection to water supply, sewage, electricity (only in Belgium, excluded in the Netherlands)
7. All necessary inspections and reports (EPB, ventilation, electricity, sewage...)

Not included:

1. The architect fee. They need to be completely independent to represent your interests.
2. Additional costs related to your specific plot, e.g. if it is difficult to reach or the ground is very unstable. Standard transport and groundworks are included.

Do you have any doubts? Don't hesitate to contact us!
