Material	The table's base is made from a carefully welded and powder-coated steel profile. Its tabletop is made from one of the standard marble types offered by New Works, cut and polished to a shiny finish.
Cleaning & Care	Use a soft, dry cloth to remove the dust from the table. For deeper cleaning, dampen a cloth gently wipe the surface. If needed, use a mild detergent. Always test a small area first to ensure it does not damage the finish. After cleaning, use a dry cloth to wipe away moisture, since moisture can damage the material. Pay extra attention to the marble components while cleaning - Marble is a natural material, it is sensitive to liquids. If the liquid is not removed immediately, spilled liquids can leave a permanent stain on the table top.
