

Kantarell Wall & Ceiling Lamp

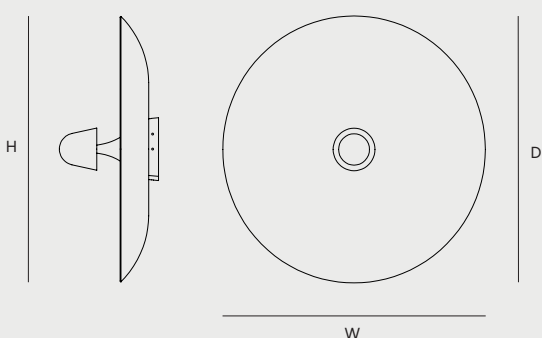

The Kantarell Wall & Ceiling Lamp exudes an aesthetic elegance through its pared-back perfection, where flowing curves and soft finishes create a compelling visual impression. The almost hidden LED light source, resembling an inverted funnel, disperses the light from the centre and allows it to diffuse across the gently curved shade, creating an intangible ambient glow. The lamp is hardwired and can be mounted both vertically and horizontally.

Product highlights

- Available in two color options: black and nickel-plated.
- Compliant with CE, SAA and ETL standards for use in both EU, UK, AU and US markets.

Product Type	Wall and Ceiling Lamp, Lighting
Designer	Falke Svatur, 2025
About the Designer	Norwegian designer Falke Svatur studied industrial design in Sydney, and after two years working as a designer in Copenhagen, he started his own practice in Oslo, his native Norway. His process as a designer is a hybrid between analogue and digital, where the development of ideas always starts with sketches on paper. Falke sees design as a perpetual process of maturation, where ideas need to rest and mature to ensure they stand the test of time. His work often explores the tension between utility and abstraction, drawing inspiration from everyday objects and forgotten gems of the past. Through material experimentation and a hands-on approach, he creates objects that invite reflection through their tactile and sculptural presence.
Environment	Indoor
Country of Origin	China
Assembly Requirements	Preamsembled.
Material	Nickel-Plated: Kantarell's LED board is discreetly housed within a die-cast aluminum cup that also serves as a heat sink. The reflector is crafted through metal spinning. The LED cup and canopy are finished with a nickel-plated surface treatment, enhancing corrosion and wear resistance. The interior of the reflector is powder-coated white. Black: In the black finish, Kantarell's LED board remains concealed within the die-cast aluminum cup, which doubles as a heat sink. The reflector is crafted through metal spinning. The LED cup, canopy, and the top of the reflector are coated in black powder, while the interior of the reflector retains a white powder-coated finish.
Light Source included	Yes
Cleaning & Care	Turn off the electricity before cleaning the lamp. Wipe the product with a soft dry cloth. Do not use any abrasive cleaning tools, and never use strong cleaning agents such as household glass cleaner, white spirit, or turpentine.

Dimensions	Height:	200 mm / 7.9"	
	Width:	550 mm / 21.6"	
	Depth:	550 mm / 21.6"	
Packaging Dimensions	Height:	320 mm / 12.6"	
	Width:	700 mm / 27.6"	
	Depth:	700 mm / 27.6"	
Weight	4.6 kg / 10.1 lbs		
Weight Incl Packaging	5.3 kg / 11.7 lbs
