

May Side Table

The May Coffee and Side Tables are designed to complement the May Lounge Chair, creating cohesive and versatile outdoor seating areas. Featuring a simple and understated aesthetic, the tables come in two carefully curated colours, a greenish light grey and a deep dark green. Their versatile design allows for flexible use in various settings, whether paired with the May Lounge Chairs individually or combined for a layered effect. The taller side table is designed to overlap the lower coffee table, enhancing both functionality and visual harmony in your outdoor space.

Product highlights

- Part of a family ensemble consisting of different Chairs and Tables as well a Bench.
- Features an outdoor powder coating.
- Suitable for use in both public and private settings.
- Made from steel for a heavy, qualitative feel.

Product Type	Side Table, Outdoor Furniture
Designer	Hannes & Fritz, 2026
About the Designer	Hannes & Fritz is the design studio of Johannes Breuer & Fritz Gräber. With Johannes in Stuttgart and Fritz in Zurich, they develop each project through a mix of individual and mutual work across cities. Both have a very similar skillset and common interests, but they each bring their own unique perspective to their collaborative projects; Johannes' tendency to be rather linear and emblematic, and Fritz's more dynamic and expressive design language. Merged together, the results are more interesting than what each designer could have achieved individually.
Environment	Outdoor
Country of Origin	Croatia
Assembly Requirements	Preassembled
Material	The May Bistro Table is constructed from steel, with a primer and top coat suitable for outdoor use.
Cleaning & Care	Clean the table using a soft, dry or slightly damp cloth. If needed, apply a mild detergent and promptly wipe away the residue with a clean cloth. Any leftover detergent can damage the powder coat. Avoid using abrasive cleaning tools or strong cleaning agents as they may cause damage to the surface of the product. With regular use, minor rust spots may naturally appear. Scratches or damage to the powder-coated surface can make the exposed areas more prone to corrosion. Chipped or peeling paint from impact may further increase this risk. Furthermore, placing the furniture near the sea can accelerate the corrosion process.

Dimensions

Height: 462 mm / 18.2"
Width: 400 mm / 15.8"
Depth: 400 mm / 15.8"

Packaging Dimensions

Height: 480 mm / 18.9"
Width: 430 mm / 16.9"
Depth: 430 mm / 16.9"

Weight

9.2kg / 20.3 lbs

Weight incl Packaging

10 kg / 22.1 lbs

**Versions**

Item No: 45211
Variant: Light Grey

Item No: 45210
Variant: Dark Green

Production & Components**Materials, Treatments & Adhesives**

Surface treatments used are not labelled with risk hazardous classifications.
