

## Cleaner Air for Your Building

Plasma Air's in-duct air purification products have been installed in thousands of businesses worldwide. These solutions have been proven to inactivate viruses and bacteria, neutralize odors, mold and harmful off-gases (VOCs) and offer considerable energy savings.

 Ask how our solutions continuously purify the air in your building!

### BENEFITS:

-  Keep employees, customers and tenants healthy
-  Enjoy up to 30% energy savings
-  Low to no maintenance solutions with low ongoing costs
-  Reduce monthly energy costs by reducing fresh air requirements
-  All Plasma Air Needlepoint Bipolar Ionization solutions have UL 2998 certification for zero ozone emissions

**“ We are extremely happy with our choice to install Plasma Air’s bipolar ionization technology. Not only is our air quality exceeding expectations, but we saved on our HVAC installation costs and continue to save significantly on our annual energy costs. ”**

-Ed Souza  
Project Coordinator, Alachua County School District
