

Cleaner Air = Happier Guests

77% of consumers said proof of a hotel's indoor air quality would impact their decision on where to stay.

In hospitality, we all agree that online reviews are critical and as hotel operators, improving the guest experience is a top priority. Rooms with musty odors are one of the first things a guest recognizes.

WellAir's indoor air quality solutions not only attack odors but also combat many other airborne pollutants, offering guests peace of mind while they're staying at your property.

+ Plasma Air for continuous air purification in every hotel room
