October 2021!

I plant a tree, we grow forests

Welcome to Life Terra's Newsletter of October 2021 where we update you on the latest developments in planting events, technology and education activities in the project.

We are ambitious because we know that the world needs massive #climateactionnow.

Life Terra is a project co-funded by CINEA through the LIFE Programme.

Recent Project Activities

Life Terra's 6th Steering Committee Meeting in Amsterdam

On September 30 and October 1, the Life Terra project celebrated its 6th Steering Committee meeting (SCM) in Amsterdam. The Consortium had finally the fantastic opportunity to meet in person for the first time since the beginning of the project for two intense meeting days!

speaker on how to improve our team spirit), presentations by each partner to display amazing work that has been done over the last year, and the milestones and objectives for Life Terra's 2nd year!

Read more [here](#) to find out more about the meeting.

Life Terra celebrated its first year!

The project Life Terra just completed its 1st year. Watch this video to see the amazing milestones we have achieved thanks to the hard work of the consortium and supporters.

Upcoming Activities

As we are entering into the 2nd year, we are proud to announce the official Kick-off of the next Planting Season. The first planting events have already happened, both for citizens and partners, in the Netherlands, Spain and Italy - with more countries in 2022.

Life Terra has also already begun planting in Spain, including:

- At a great spot close to Vilanova i la Geltrú where Life Terra, together with local volunteers, is restoring a wildlife crossover with bushes and trees.

- At a school in Catalonia in collaboration with the The Green Rebel agroforestry project.

- Life Terra organised one of its biggest planting events with citizens in Las Rozas (Madrid) with more than 3,500 people.

Webinar for HigherEd! Planting one tree for each student that graduates: case-study Avans University of Applied Sciences

GreenOffice students Lisa Heyman and Nick den Bol of Avans University of Applied Sciences (Avans Hogeschool) had a big dream: to give a tree as a gift to all graduates and to create a new forest with it. To help nature recover and to make Avans education CO2-neutral in the long run. The dreams did not stop there. Lisa and Nick sought cooperation with the Life Terra Foundation, in July 2021, the first 4,000 graduates received a graduation tree as a gift. The newly planted forest will grow to 100,000 trees in the coming years.

Join [this Webinar](#) (30 November) to learn about this Case-study and see how also your University can help in battling climate change and restoring earth, 1 tree at a time.

You can find out more about our planting events and the Behind-the-Scenes [here](#).

The gift that keeps on growing

With the holidays coming up, do you want to give your loved ones a sustainable Christmas present? An alternative to the useless socks and stationary?

Why not gift them a tree - doing your part in the fight against climate change.

Check out our website to [Adopt a Tree](#).

Looking for sustainable Christmas gifts for employees, for customised options please reach us at contact@lifeterra.eu.
