Recent Project Activities

Life Terra is expanding!

We are happy to announce that we are launching in a new European country! Life Terra has started planting trees in the Czech Republic - the first planting event took place in Vintířov on 19 November in collaboration with the Czech University of Life Sciences in Prague.

Looking for a sustainable team building event?

Look no further! Life Terra is working with a number of companies to organise sustainable team planting events, where employees plant trees and learn about the positive impact that tree planting can have on the environment.

To mention just a few, Life Terra has worked with C&A, Typeform, Mach3Builders and Seat over the last couple of months to plant trees across Europe.

With climate change being at the forefront of everyone's mind, especially with the United Nations COP26 Conference this month, if you would like to be a part of the action - [contact our team at Life Terra](#).

Upcoming Activities

Webinar: Link tree planting to your University

Last chance to save your spot to attend our virtual event about how universities can take climate action and learn how Avans University did this. Join Speakers from both Life Terra and Avans University **today on 30 November at 2pm** to get a real look into how your University can also help battle climate change and restore the earth. **Register** [here](#).

Sustainability for Christmas!

Can't think what to buy for Christmas this year? Have a Secret Santa you need to

Why not buy sustainable and ethical gifts for both your friends and loved ones and for those at work instead of the usual stale presents? Life Terra is pleased to announce our Christmas Gift Guide, where we give you tips and tricks during this holiday season and also give you the chance to adopt or gift a tree for Christmas instead.

Check it out [here](#).

Life Terra's Data Visualisation: "World still on track for drastic global warming"

As the dust settles after COP26, many are left questioning whether the fanfare of pledges and new ambition to tackle climate change that was announced will make any tangible difference to global warming. Read our [Data Visualisation](#) to learn more.

Life Terra, europe • Following

Life Terra, europe Life Terra organised a training session for Terra Leaders in the field. This time, volunteers were members of the Fundación for the Best World, based in Madrid. A foundation that works on the basis of cooperation, in the search for a responsible impact of human actions on the environment and society. After a short introduction about the Life Terra project, Terra Leaders planted their own trees and learnt how to plant them correctly and support others to do so. Soon after, they helped the Life Terra team at the event in Las Rozas (Madrid), where more than 3,500 people came to plant trees. Terra Leaders experienced first-hand what a planting event is like and are now empowered to lead other Life Terra events. This is the first of many more collaborative activities between the two organisations. Thanks for your help and energy! #fundacionbestworld
