Life Terra and [Scientia](#) are proud to announce the [Terra Mission MOOC: Sustainability for Action](#). With this course, which will be held online on the E Schoolnet Academy, primary and secondary teachers will have the opportunity to raise environmental awareness in their schools and beyond! The course will guide them through the Terra Mission Educational Pack, which will lead students to investigate, learn and act as climate experts.

Teachers with classes of all ages can [register](#) to participate in this MOOC, which starts in January 2022 for 5 weeks.

EY Pledge

The Life Terra team has some amazing news to share! We are thrilled to announce that the global organisation [Ernst & Young](#) (EY) has already pledged over 100,000 trees to be planted all across Europe. Different country offices of EY have planted trees in their own respective countries to help support climate action and its benefits in their country.

Terra and other partners, planted trees at several sites in Spain, including 110 trees in Pineda and 90 trees in the Catalan Pyrenees. This last project, also planted 5 Cocoons to help the seedlings survive.

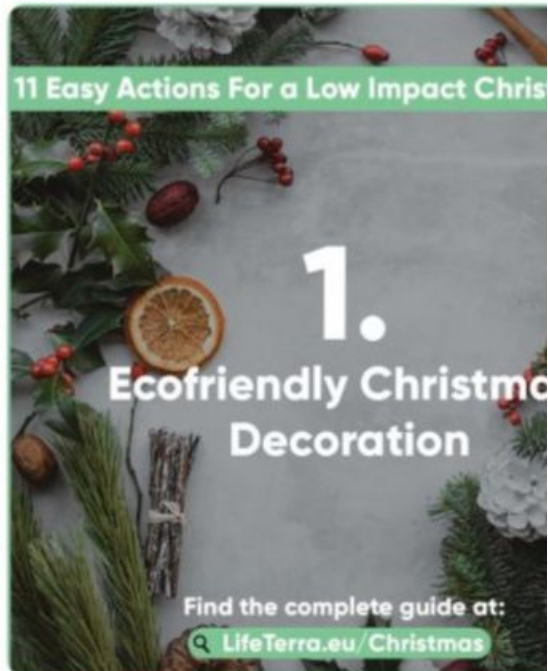

We are very happy about this collaboration and hope to be able to continue making progress in the creation and recovery of forest areas together with Creadoras de Bosques.

Thank you very much for your commitment and for the journey we are starting today!
