Recent Project Activities

New EURACTIV Special Report: the EU's Forest Restoration Law

In their latest Special Report, Life Terra's beneficiary EURACTIV investigated the EU's proposed Nature Restoration Law, the legislative process behind it and the consequences it could have on the future expansion of forests around the continent. If you want to find out more about this law and about why we need it urgently to protect our ever-so-endangered forests, you can read it [here](#).

Life Terra Climate Action Awards: 2022-2023 edition

For the second consecutive year, this summer Life Terra recognised who contributed the most to reaching the goals of the project with the Climate Action Awards. The award was given to the 12 individuals and organisations that made the most significant contributions to climate action during the past year, including volunteers, schools, landowners, but also singers, teenagers and treeplanting experts. Curious to discover who the winners were in 2023? Click [here](#).

Terra Mission MOOC Rerun: Teaching Sustainability for Action

To face today's environmental challenges, it is essential to raise awareness amongst students and empower them to take climate action. That's why Life Terra's beneficiary Scientix developed a MOOC, aimed at primary and secondary teachers interested in

place between 11 September and 18 October 2023, online on the European Schoolnet Academy. If you are a teacher and you wish to help your students become climate and environmental experts, [register now!](#)

Life Terra lands on TikTok

For more and more people to start believing in our mission, we need to continue finding new ways and new platforms to spread the voice of what we fight and why we need to fight it. TikTok is the newest of these platforms. Life Terra is now on it, with the hope of continue gathering more attention, especially among young people. Do you want to keep up with Life Terra's TikTok content? You can do so [here](#).

3rd season recap video

The third planting season of the project was the most successful so far, with more than 3 Million trees planted. We have therefore made a video to recap the goals achieved and the finish lines crossed during this last season. You can check it out [here](#)!

We are thrilled to celebrate this incredible achievement. Last June 21st, we planted our tree number 4 million 🌱

And not only that! This tree is now planted in a tiny food forest in Lingilt, Sweden, making it the 18th country in Europe where Life Terra has planted in 🌱 A double reason to celebrate!

🙌 Thank you to Lingilt for hosting us and to all of you who made this possible 🌱

Let's continue and let's plant together!

[#thankyou](#) [#treeplanting](#) [#sweden](#) [#lifeterra](#)

This year we wanted to acknowledge the great work [ClimatePartner](#) is doing in inspiring other stakeholders to take a step further in fighting against climate change.

Together, we teamed up in Chambord (France) and made clients across Europe more aware of land degradation and engaged them in concrete climate action by planting 8,000 trees 🌱 locally with their employees.

But their actions don't stop there!

They have already plans to plant another 1,000 trees in the Netherlands next planting season! 🌱

Congratulations on the award 🏆 and we hope to continue creating a positive impact together in the future 🌱.
