

Join the movement to **green** our planet!

Strong pact ——— Life Terra

We are proud to work with a consortium of 17 partners from 8 EU countries that bring together expertise, knowledge and network in implementation, technology, education and communication.

Our project is approved and supported by the European Commission through the LIFE programme.

**Plant trees
Grow forests
Restore Earth**

500 million trees for Europe

Life Terra is a foundation with a mission to enable people to take impactful climate action now.

Plant trees, become a volunteer, trial our education course, organise a restoration project, offer land or compensate your carbon footprint.

Join a planting event

Do you want to engage your employees or clients while contributing to a positive impact on the planet? Make one of Life Terra's planting events your unique company event. Go green with your team!

Offer Land

Offer your land! We will facilitate the tree planting without any costs for you as a landowner. You will be involved throughout the whole planting process.

Our Education programme

Life Terra offers a free, interactive STEM-based environmental education programme for children aged 8-14. It covers topics like sustainability, energy transition, climate change, and circular economy, and is delivered digitally to classrooms.

Become a planting partner

Is your organization already planting trees? We can offer you our monitoring technology to engage your clients and volunteers. We will use a separate record to prevent double counting.

Adopt a tree

Adopting a tree is the most effective climate change option available. You are able to adopt or gift a tree via our platform. This is a good start to compensating your carbon emissions and raising awareness amongst your network.
