

500 million trees for Europe

Create a legacy that matters!

Life Terra is a foundation with a mission to restore our connection with the earth and to enable people to take impactful climate action now. We facilitate tree planting, educate future generations, and develop tree monitoring technology.

500

Million trees planted

3.536.423

Tons CO2 captured

1.350.000

Citizens participating

14.000

Classrooms participating

What makes us unique:

Plant the right tree in the right place, share knowledge and expertise

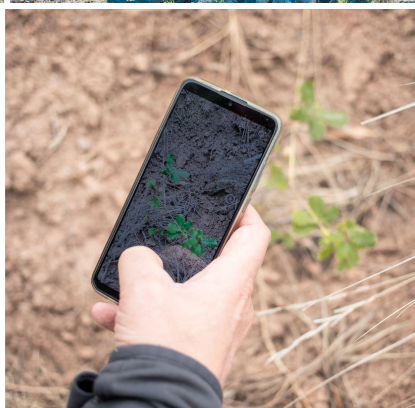

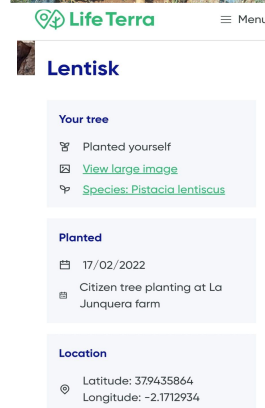

Monitor each tree planted, with our unique tracking system

Educate future generations, about sustainability and climate change

Build communities, because planting trees impacts society at large

Planting trees with Life Terra enables you to:

- **Engage** your employees, customers and other stakeholders in planting events
- **Monitor** and track your own trees in our app
- **Reduce** your carbon footprint
- Have a **positive impact** on communities
- Make a tangible and relevant **climate impact**
- Make a relevant contribution to **sustainable development goals**
- Be part of a **unique movement** to green our planet

Plant Trees

Grow Forests

Restore Earth

Strong pact

We are proud to work with a consortium of 17 partners from 8 EU countries that bring together expertise, knowledge and network in implementation, technology, education and communication.

Our project is approved and supported by the European Commission through their LIFE programme.
