Recent Project Activities

The European Tree Planting Day is launching soon!

We are proud to launch the [European Tree Planting Day](#), an inspiring initiative with its first edition this coming November. Envisioned as a festival of nature and sustainability, the European Tree Planting Day will see communities across Europe coming together to plant trees simultaneously.

Together with our tree-planting partners, we are inviting anyone interested in contributing to local climate action. We are calling on municipalities, companies, NGOs, and of course individuals, to join forces in a collective effort to combat climate change through the simple yet powerful act of planting trees.

Are you organising a tree-planting event with your organisation? Join this European initiative to scale up our environmental efforts!

Learn more [here](#).

Spots available for the Demo Week in The Netherlands

Is your company based in The Netherlands? Are you looking for an employee activity that is truly engaging, fun, outdoors and has a positive impact on your team and the planet?

The next December **10th, 11th, 12th & 13th**, we offer our engaging team-building events for a reduced price. This is the opportunity to [participate with your company](#) in a tree planting experience while networking outdoors with your colleagues. Enjoy a day in the field and create a legacy that matters!

Interested? Reach out at nadia@lifeterra.eu.

A new edition of the big family event in Las Rozas (Madrid)

Next October 19th, Life Terra will organise a new edition of our biggest family event in Las Rozas (Madrid, Spain) in collaboration with the Municipality of Las Rozas.

Last year, more than 2,000 people joined us in the field to restore a degraded area of the neighbourhood with more than 3,500 trees. We hope to repeat this success again this year and kick off our planting season in Spain.

For all our Spanish followers, if you are around the area that day, don't hesitate to show up!

The Life Terra team will attend the Event Sustainability Live in London on November 20th and 21st.

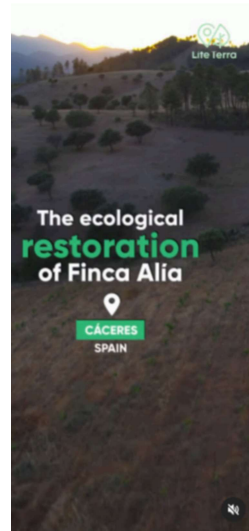

The Event Sustainability Live (ESL) is a two-day Exhibition and Conference bringing together event professionals, thought leaders and sustainability experts.

We are really excited to meet professionals from all over the world who are passionate about sustainability 🌱 and open to sharing new ideas and building future partnerships.

We will have a speaking session during the conference. Stay tuned for more details!

lifeterra_europe 2w By planting the right trees in the right place, an ecosystem can increase its biodiversity 🌱🍀

🍀 And this is what we have seen in Finca Alía where the presence of local fauna has risen since they started the reforestation.

Supporting projects like Finca Alía helps create more resilient ecosystems to the effects of climate change and promotes the development of the rural community.

Start taking action today! Get in touch with us at carbon@lifeterra.eu 🌱
