

Scientix[®] presents:

Future-proofing STEM Education - 21st Century Pedagogies for the Planet

Isidora Salim, Project and Pedagogical Coordinator

<https://theseer.scientix.eu>

The work presented in this document has received funding from the European Union's Horizon Europe programme project the SEER (Grant agreement: 101058569), coordinated by European Schoolnet (EUN). The European Commission's support for the production of this publication does not constitute an endorsement of the contents, which reflect the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein. The SEER is supported by Scientix, the community for science education in Europe, an initiative of European Schoolnet.

Scientix, the community for science education

Scientix has been the heart of the European STEM Education Community since 2009...

... It offers the space for all people working in the field of science education (teachers, education researchers, policymakers, STEM education professionals, etc.) to **exchange, collaborate, and learn from each other.**

<http://www.scientix.eu>

With over **10,000 teachers** involved monthly, SCIENTIX reaches more than **120,000 students** every month!

Scientix provides

Objectives of the SEER

- Provide a **Roadmap** to help education stakeholders mainstream STE(A)M Education in Europe
- **Focus** on Heads of School/schools, policy-makers, curricula authors and reformers, industry partners, and teachers
- Contribute **recommendations** for policy improvements
- Help stakeholders **navigate** the current STE(A)M educational resources
- Showcase and understand **good practice** in STE(A)M teaching

Integrated STEM and Open Schooling

**Scientix® presents:
Future-proofing STEM Education -
21st Century Pedagogies for the Planet**

Ioana Charaghiozov, Project Officer

<https://theseer.scientix.eu>

The work presented in this document has received funding from the European Union's Horizon Europe programme project the SEER (Grant agreement: 101058569), coordinated by European Schoolnet (EUN). The European Commission's support for the production of this publication does not constitute an endorsement of the contents, which reflect the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein. Never have I ever heard of the term STE(A)M education

I have

I haven't

Never have I ever collaborated with a teacher from another subject for a lesson (or group of lessons)

I have

I haven't

WHAT IS STE(A)M EDUCATION?

1. Subjects

- At least **TWO DIFFERENT** STEM subjects
- **ONE** STEM subject combined with **ANY OTHER SUBJECT**
- Can include Arts or Humanities or other subjects (e.g., sports)

Chemistry, Physics, Biology

Social Sciences, Arts, Literature

Competence-based Education for 21st Century skills

2. Pedagogies:

Problem/
Project based
learning

Inquiry based
science
education

Content and
Language
Integrated
Learning

[https://files.eun.org/STEAMIT/STE\(A\)M-IT-Framework-Digital.pdf](https://files.eun.org/STEAMIT/STE(A)M-IT-Framework-Digital.pdf)

Real World Problems to Explore STE(A)M Education:

Climate Change

Gender Equality

Responsible consumption
and production

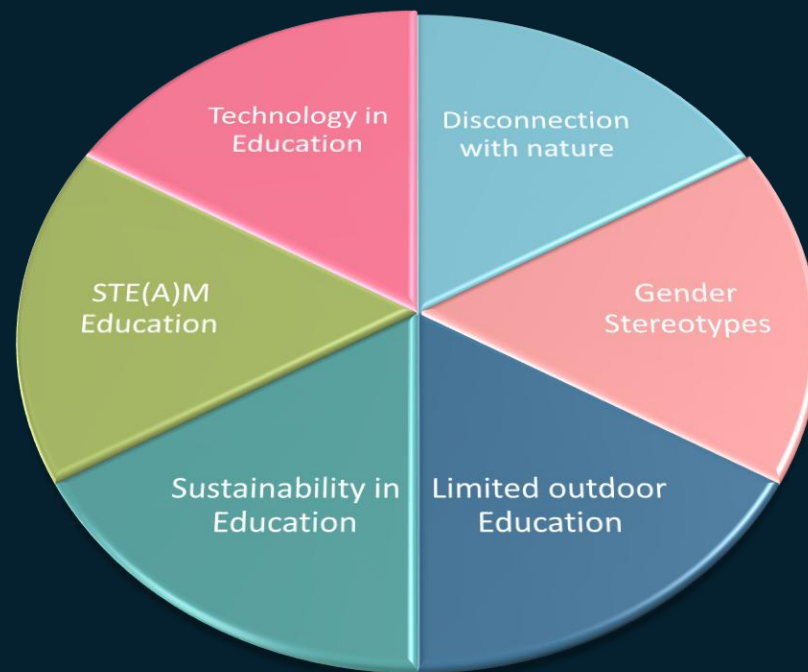

21st Century skills:

- Critical thinking and research skills,
- Creativity, imagination,
- Planning and self-direction
- Oral and written communication,
- Leadership and teamwork,
- ICT literacy,
- Economic and financial literacy
- Global awareness and multicultural literacy/ acceptance of others and empathy
- Health and wellness literacy/ public health and safety

OUTDOOR STE(A)M: Outdoor learning in Early Childhood Education and Care and primary schools using age-appropriate technology and the STE(A)M Approach.

OUTSTE(A)M's efforts address various challenges and concerns such as:

Upcoming:

Green and Blue Education for a better tomorrow

What makes Green and Blue Education?

Competences to help students and teachers understand, care, and act for the Planet

Taking teaching and learning **outside the classroom** to embrace surroundings and nature

Contextualisation of STEM education in society, connection with global environmental challenges

Nurture the students, **citizens of today and tomorrow**

Blue Education: topics

- Ocean literacy for all, with accessible resources to foster understanding
- Restore, protect and maintain ocean biodiversity
- Importance of the ocean in our daily lives, (climate, food resources, overall human well-being)

Green Education: topics

- Environmental sustainability initiatives
- Bioeconomy careers
- Nature-Based Solutions (NBS), such as greening of school(yards)
- Outdoor learning , experiential hands-on approach, whole-school approach

Green and Blue Education - Competences

- Learning for sustainability
- Knowledge, skills and attitudes
- Empathy, responsibility, and care for our planet

“EXPLORING NATURE-BASED SOLUTIONS IN YOUR CLASSROOM” MOOC

- Learn about NBS and teach your students
- Launched in 2025; 5 weeks; open to anyone - available in the archive here:
<https://www.europeanschoolnetacademy.eu/courses/course-v1:Scientix+NBS+2023/about>

New MOOC coming up starting in January 13, 2025!

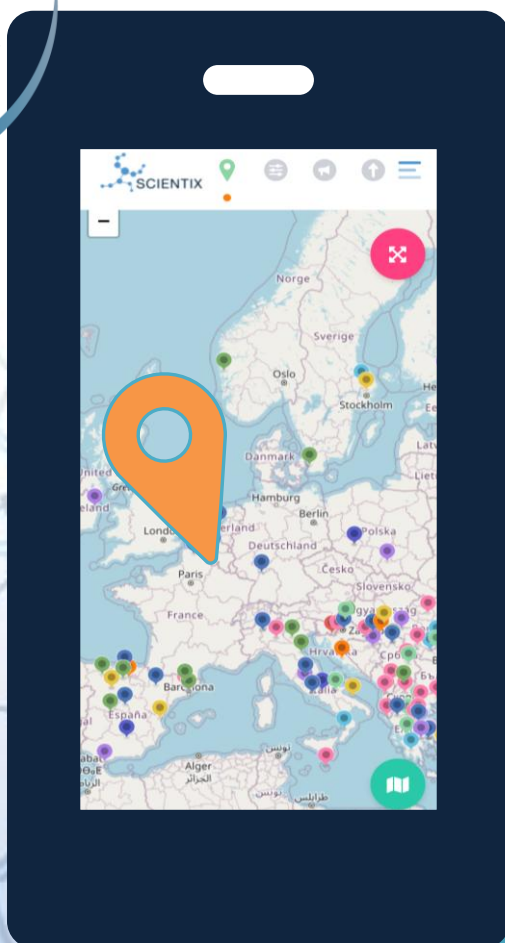

New technologies help bring new and immersive learning experiences to overcome geographical barriers

Environmental literacy accessible to all.

THE SCIENTIX CAMPAIGNS: SHARING STEM KNOWLEDGE WITH THE WORLD, AND EACH OTHER!

- Scientix organises multiple campaigns all year round to showcase projects, STEM topics, events, and new resources
- Every year, the STEM Discovery Campaign puts YOUR teaching on the map by sharing your activities, lesson plans, resources, etc.
- During the campaigns, join events, webinars and workshops to get inspired and learn
- Follow the Scientix social media channels to stay up to date with the latest STEM Education development in Europe!
