## Celebrate You

"A win is a win", means to celebrate every achievement, no matter how small. This month we celebrate the first anniversary of That Face and I feel extremely fortunate that you are a major part of our success story. As you celebrate with us, I hope you are inspired to think about your personal journey and acknowledge your accomplishments. No matter the reason, you should always do things to celebrate you!- *Dr. Sulyman-Scott*

### Procedure Highlights

#### All about the EYES

- Surgical: Blepharoplasty
- Non-Surgical: Fillers/Neurotoxins/Laser

### Skin Care Spotlight

#### Restorative Eye Treatment

### What's New?

Anniversary Promotions  
and Event.

*"Stop wishing you had  
great skin and get it!"*

# Surgical

## Blepharoplasty (eye lid surgery)

*As you age, your skin loses its natural elasticity, and the eyelids develop folds and begin to sag. This natural progression leads to a droopy “hooded” look in your eyes. Some people develop visible under-eye bags or bulges. This excess skin can make you appear tired, unhappy, or older than you want.*

## Blepharoplasty (eye lid surgery)

### Upper Blepharoplasty

Before

After

***Eye lid surgery can improve the appearance of :***

- Droopy eyelids
- Loose or sagging skin on your upper eyelids
- Excess skin that interferes with your vision
- Bags under your eyes
- Fatty deposits lodged above or beneath the eyes
- Puffy eyelids
- Hooded eyes

# Non-Surgical Eye Treatments

## Chemical Eye Brow Lift

Using neuromodulators it helps to relax the muscles that pull down on the eyebrows, to help lift the brows and open up the eye- giving a more youthful look.

Neuromodulators also help in the reduction of crow's feet and wrinkles.

## Under Eye Filler

By injecting a hyaluronic acid filler, it can improve the appearance of sunken or darken under eye area. For certain patients fillers can also be used to improve the appearance of under eye bags.

## CO2 Laser

CO2 laser skin resurfacing can be used for periorbital rejuvenation. It helps to tighten the skin around the eyes, therefore, improving the appearance of lines and wrinkles.

*Don't just take our word for it.  
Read what our patients have to say about  
That Face.*

**Really great place! Went  
here for fillers and I am so  
happy with my results. The  
doctor is clearly  
experienced and knows  
what she was doing. I  
definitely felt like I could  
really trust her**

Patient  
Feedback

**The kindest, most  
caring, enthusiastic,  
encouraging doctor.  
She and her staff  
really care and made  
me feel special.  
Thank you!**
